This publication has been prepared and adapted to gender budget analysis in the agriculture and rural development in the Republic of Srpska, conducted in 2009, with support from United Nations Development Fund for Women (UNIFEM), now UN WOMEN. The main findings of this analysis were part of the Information on the Status of Women in Rural Areas in the Republic of Srpska, adopted by Republic of Srpska Government on 08.10.2009 and afterwards by the National Assembly of the Republic of Srpska on 24.11.2009.

The original text of the analysis is partially adapted for publication in the parts describing the normative-legal and real context for gender mainstreaming in BiH and the Republic of Srpska, as well as the chronological development process of gender responsible budgeting in the Republic of Srpska. The methodology, process research and findings are not altered from the original analysis.
