

# Preface to the Millennium Edition

The original 1981 edition of *A Course in Universal Algebra* has now been LaTeXed so the authors could make the out-of-print Springer-Verlag Graduate Texts in Mathematics edition available once again, with corrections. The subject of Universal Algebra has flourished mightily since 1981, and we still believe that *A Course in Universal Algebra* offers an excellent introduction to the subject.

Special thanks go to Lis D'Alessio for the superb job of LaTeXing this edition, and to NSERC for their support which has made this work possible.
