*Dear authors,
Dear readers,*

Journal of Information Technology and Applications (JITA) is a scholarly open access, peer-reviewed, fully refereed journal, which provides a platform for scientists and academicians all over the world to discuss new issues and developments in different areas of informatics including:

- Information Technology
- Information Sciences
- Information Science and Technology
- Computer Science
- Computer Science and Technology
- Information Systems
- Intelligent Information Systems
- E-Learning
- Education and Information Technology
- Informatics
- Software Engineering
- Software Engineering and Applications
- Data Science and Analysis
- Data Science and Technology
- Data Processing
- DB - Data Base
- Data Mining and Knowledge Discovery
- SQL Data Base
- Non-SQL Data Base
- Not SQL Data Base
- Computer Networks
- Internet
- Intranet
- Cloud Computing
- Soft Computing
- Fuzzy Data Base
- Neural Networks and Applications
- Sensors
- Sensors and Sensor Networks
- IoT - Internet of Things
- RDBMS
- Quality of Software
- Software Metrics
- Algorithms
- Search and Sorting
- Computational Mathematics
- Numerical Mathematics
- Coding Theory

The topics covered by this journal include, but are not limited to:

- Advances in Networks
- Artificial Intelligence
- Intelligent Systems
- Computer Modelling
- Operations Management and Information Systems
- Statistics and Informatics
- Mobile Computing
- Machine Learning Research
- Mathematics and Computer Science
- Bioinformatics
- Medical Imaging
- Ophthalmology & Visual Science
- Sustainability Management and Information Technologies
- Discrete Probability Distributions
- Science Development
- Innovation

We can proudly point out that JITA started with the selection of quality articles and has continued as such to this day. Members of the review team come from all continents, as well as the paper authors. With two independent “blind” reviews, we manage to select the highest quality articles and publish them afterwards.

Our mission has been, and remains to promote and establish cooperation and dialogue between academic institutions and research institutes belonging to the field of information technology, which involves the following:

- Promoting the best research output in the academic field.
- Support in the professional training of IT staff.
- Introducing computer scientists
- with advanced modern technological achievements.
- Announcement of novelties in the most advanced information technologies.

Gratitude

On behalf of the Editorial Board, we would like to thank the authors for their high quality contributions, and also the reviewers for the effort and time invested into the preparation of the Journal of Information Technology and Applications.

Acknowledgments

We would like to thank many who have read and/or commented on earlier versions of this journal including Leonid A. Baranov, Yuri M. Inkov, Mirko Vijošević, Sanja Bauk, Dimitris Kanellopoulos and Nedim Smailović. However, any errors or shortcomings remain my full responsibility.

Conflicts of Interest

The author declares no conflict of interest.

*Editor-in-Chief, Zoran Avramović
