

Table of Contents

Preface	ix
Introduction	xi
Part I— Infusion Therapy	1
General Policies and Guidelines	3
Agency-Approved Antimicrobials (Exhibit I-1)	6
Agency-Approved Chemotherapeutic and Miscellaneous Medications (Exhibit I-2)	7
Procedure: Exceptions to Established Policies/Procedures	8
Procedure: Exceptions for RN Certification	9
RN Certification Exception (Exhibit I-3)	10
Procedure: Anaphylaxis Protocol—Adult	11
Procedure: Needle/Syringe Disposal	12
Part II— Obtaining Blood Specimens for Laboratory Analysis	13
General Policies and Guidelines	15
Procedure: Selection of Blood Specimen Tube	16
Procedure: Blood Draw Via Peripheral Venipuncture	17
Procedure: Blood Draw from a Central Venous Catheter	20
Procedure: Blood Draw from a Peripherally Inserted Central Catheter (PICC)	23
Procedure: Lab Draw Follow-Up	25
Procedure: Use of the Lab Callback Log	26
Laboratory Callback Log (Exhibit II-1)	27
Part III— Peripheral Catheters	29
General Policies and Guidelines	31
Peripheral Catheters: Complications (Exhibit III-1)	33
Procedure: Venipuncture for Peripheral Cannula Insertion	35
Procedure: Heparinization/Flushing of Peripheral Cannula	37
Procedure: Removal of Peripheral Cannula	38
Procedure: Gravity Infusion (One or More) Via Peripheral Cannula	39
Procedure: Administration of IV Push Medications Via Peripheral Cannula	41

Part IV— Peripherally Inserted Central and Midline Catheters	43
General Policies and Guidelines	45
Consent for Placement of the Peripherally Inserted Central Catheter (Exhibit IV-1)	47
Peripherally Inserted Central and Midline Catheter Insertion/ Removal Form (Exhibit IV-2)	48
Procedure: Insertion of the PICC	49
Additional Introducer Insertion Techniques: Through the Peelaway Cannula (Exhibit IV-3)	54
Additional Introducer Insertion Techniques: Through the Intact Cannula (Exhibit IV-4)	55
Peripherally Inserted Central Line Tip Placement Measurements (Exhibit IV-5)	56
Procedure: Insertion of the Peripherally Inserted Midline Catheter	57
Procedure: Removal of a PICC, a Midline, or a Long-Line Catheter	62
Procedure: Declotting the PICC, Midline, or Long-Line Catheter	64
Procedure: Care and Maintenance of the Peripherally Inserted Midline, Long-Line, and Central Catheters	66
Part V— Central Venous Catheters	71
General Policies and Guidelines	73
Procedure: Gravity Infusion Through a Central Venous Catheter	76
Procedure: Heparinization/Flushing of the Central Venous Catheter	78
Procedure: Injection Port Change of the Central Venous Catheter	80
Procedure: Dressing Change of the Short-Term (Nontunneled) Central Venous Catheter	81
Procedure: Declotting or Reestablishing Patency of a Central Line	83
Procedure: Removal of the Nontunneled Catheter	85
Procedure: Dressing Change of the Tunneled Catheter	87
Procedure: Accessing the Implanted Infusion Port	89
Procedure: Care and Maintenance of the Quinton Catheter	91
Part VI— Total Parenteral Nutrition	93
General Policies and Guidelines	95
Procedure: TPN—Nursing Responsibilities	97
Behaviors Related to Complications of TPN (Exhibit VI-1)	98
Procedure: Initiating, Infusing, and Discontinuing TPN	100
Procedure: TPN—Adding Medications	102
Procedure: TPN—Lipid Infusion	104
Part VII— Intravenous Administration of Chemotherapy	107
General Policies and Guidelines	109
Approved Chemotherapeutic Agents (Exhibit VII-1)	111
Procedure: Chemotherapy—Nursing Responsibilities	112
Chemotherapy Worksheet (Exhibit VII-2)	113
Procedure: Chemotherapy Drug Dosage Calculations	115
Procedure: Chemotherapy—Administration of Vesicants, Nonvesicants, and Irritants	118
Procedure: Chemotherapy Safety and Disposal Procedures	120
Procedure: Chemotherapy—Management of Extravasation	122
Procedure: Chemotherapy Administration of IV Push Drugs Through a Side Arm of a Running IV	124
Procedure: Chemotherapy—Continuous IV Infusion	126

Part VIII—Continuous Intravenous and Subcutaneous Administration of Opioids	129
Introduction	131
General Policies and Guidelines	132
Procedure: Opioid Administration—Continuous Subcutaneous	134
Converting to Continuous IV/SQ Opioid Infusion (Exhibit V II-1)	137
Titrating Continuous IV/SQ Opioid Infusion on a Pump with a Bolus Dose Feature (Exhibit VIII-2)	139
Procedure: Opioid Administration—Continuous Intravenous	140
Procedure: Administration of Intravenous Naloxone	143
Procedure: Administration of Subcutaneous Naloxone	145
Procedure: Conversion and Titration Guidelines—Continuous Intravenous and Subcutaneous Opioids	147
Dose Equivalent for Opioid Analgesics in Opioid-Naive Adults and Children >50 kg Body Weight (Exhibit VIII-3)	148
Part IX— Home Transfusion Therapy	151
General Policies and Guidelines	153
Transfusion Glossary (Exhibit IX-1)	156
Procedure: Preparation for Transfusion	157
Important Information Regarding Your Blood Transfusion (Exhibit IX-2)	158
Procedure: Ordering Blood Products	159
Procedure: Use of the Home Transfusion Standing Orders Worksheet	160
Home Transfusion Therapy Standing Orders Worksheet (Exhibit IX-3)	161
Procedure: Blood Components—IV Administration	162
Procedure: Transfusion of Packed Red Blood Cells and Saline-Washed Red Blood Cells	164
Procedure: Transfusion of Platelets/Platelet Pheresis	165
Procedure: IV Administration of Human Serum Albumin	166
Procedure: Transfusion of Factor VIII Concentrate	167
Procedure: Blood Component Transfusion—Complications/Interventions	168
Report of Suspected Transfusion Reaction (Exhibit IX-4)	172
Procedure: Blood Component Transfusion Review	173
Part X— Dobutamine Hydrochloride—Administration Guidelines	175
Guidelines and Policies for Home Administration	177
Procedure: Home Administration of Dobutamine Therapy	179
Part XI— Administration of Intraspinial Analgesia	181
General Policies and Guidelines	183
Procedure: Injection Port Change of the Epidural Catheter	186
Procedure: Epidural Administration of Medications Via External Infusion Pump	187
Procedure: Dressing Change of the External Epidural Catheter	188
Procedure: Flushing the Epidural Catheter	189
Procedure: Aspiration of the Epidural Catheter	190
Procedure: Removal of the Temporary Epidural Catheter	191
Part XII— Patient Education	193
Home IV Therapy Through a Peripheral IV Catheter	195
Introduction	195
Medication/Fluid Storage and Preparation	196

Washing Your Hands	196
What Is Sterile?	197
Handling Sterile Supplies	197
Room Setup	198
Catheter Site Management	199
Inspection of Catheter Site	199
Filling Your Catheter with Heparin	200
Heparinization of Catheter	200
IV Medication/Fluid Infusion Through the Catheter	203
Infusion of Second Medication Through IV Catheter	204
Management of Problems with Peripheral IV Catheter	205
How To Remove Your Catheter	207
Important Names and Numbers to Remember	208
Home IV Therapy Through a Tunneled Central Catheter	209
Introduction	209
Medication/Fluid Storage and Preparation	210
Washing Your Hands	210
What Is Sterile?	211
Handling Sterile Supplies	211
Room Setup	212
Management of Central Catheter During IV Therapy	212
Dressing Change of the Tunneled Central Catheter	214
Changing the Catheter Cap/Injection Port	216
Flushing the Tunneled Central Catheter	217
IV Medication/Fluid Infusion Through the Tunneled Central Catheter	219
Infusion of Second Medication	220
Management of Problems Related to Central Venous Catheters	221
Important Names and Numbers to Remember	224
Home Total Parenteral Nutrition	225
Introduction	225
Facts About TPN	226
Washing Your Hands	228
What Is Sterile?	229
Handling Sterile Supplies	229
Room Setup	230
Starting the TPN Infusion	231
Flushing the Catheter	233
Infusion of Fat Solution	235
Stopping Fat Solution	237
What To Do When the Alarms on the Pump Sound	238
Management of Problems Specific to TPN Therapy	240
Instructions on Completing TPN Record	243
TPN Record	244
Fact Sheet	245
Important Names and Numbers to Remember	246
Patient/Caregiver Manual for Continuous IV and Subcutaneous Opioids	247
Administration of Opioid Through a Central Venous Line	248
Catheter Management	249
Inspection of Catheter Site	249
Room Setup	250
Dressing Change of the Central Venous Catheter	251
Changing the Catheter Cap/Injection Port	252

Changing the IV Opioid Solution 253
 Discontinuing the IV Opioid Solution Administered Through a Central
 Venous Catheter 254
 Administration of Continuous Opioid Infusion Through a Subcutaneous Site 255
 Assessing the Patient for Possible Opioid Side Effects or Adverse Effects 256
 Administration of IV Naloxone 257
 Administration of Subcutaneous Naloxone 259
 Guidelines for the Use of the Opioid Worksheet 260
 Patient/Caregiver Opioid Worksheet 262
 Important Names and Numbers To Remember 263

Part XIII— Certification Programs 265

Home Venipuncture Certification 267
 Home Intravenous Therapy Certification 276
 Peripherally Inserted Central Catheter and Midline Catheter Insertion and
 Maintenance Certification 282
 Home Total Parenteral Nutrition Program Certification 285
 Home Intravenous Chemotherapy Certification 289
 Home Administration of Continuous Intravenous and Subcutaneous Opioids Certification 293
 Home Transfusion Therapy Certification 297
 Home Administration of Intraspinal Analgesia Therapy—Staff Education/Certification 304

Appendixes 307

Appendix A—Answers to Posttests 309

Key to Home Venipuncture Certification Posttest 309
 Key to Home Intravenous Therapy Certification Posttest 310
 Key to Peripherally Inserted Central Catheter and Midline Catheter Insertion
 and Maintenance Certification Posttest 310
 Key to Home Total Parenteral Nutrition Program Certification Posttest 311
 Key to Home Intravenous Chemotherapy Certification Posttest 311
 Key to Home Administration of Continuous Intravenous and Subcutaneous Opioids
 Certification Posttest 312
 Key to Home Transfusion Therapy Certification Posttest 312
 Key to Home Administration of Intraspinal Analgesia Certification Posttest 313

Appendix B—Suggested Readings 315

Index 319
