Introduction .....	xxii

## PART 1 ■■■ Introducing REALbasic

<b>CHAPTER 1 An Introduction to REALbasic .....</b>	<b>3</b>
Overview of REALbasic .....	3
Drag-and-Drop GUI Design .....	5
Object-Oriented Programming .....	6
RAD .....	6
Cross-Platform Application Development .....	6
What Can REALbasic Do? .....	7
What's New in REALbasic? .....	7
Supported Development Platforms .....	8
Supported Execution Platforms .....	10
Standard vs. Professional .....	10
REALbasic 2006 Standard Edition .....	11
REALbasic 2006 Professional Edition .....	12
Downloading REALbasic .....	13
REALbasic vs. Visual Basic .....	14
REALbasic vs. Apple's XCode .....	16
Online REALbasic Support Services .....	17
Getting Started with Your First REALbasic Application .....	19
Hello World! .....	19
Compiling Your Application for Macintosh, Windows, and Linux Execution .....	32
Summary .....	33

<b>CHAPTER 2</b>	<b>Navigating the REALbasic Integrated Development Environment</b>	35
Starting REALbasic .....	35	
The REALbasic Menu .....	37	
REALbasic's Main Toolbar .....	38	
Default Main Toolbar Resources .....	38	
Configuring REALbasic's Main Toolbar .....	38	
REALbasic's Bookmarks Toolbar .....	39	
Adding New Bookmarks .....	40	
Editing Your Bookmarks .....	40	
REALbasic's Screen Area .....	41	
Tabs Bar .....	41	
Editor Toolbar .....	42	
Screens .....	42	
REALbasic's Tips Bar .....	51	
REALbasic's Integrated Help Features .....	52	
Accessing REALbasic's Manuals .....	53	
Accessing REALbasic Online Resources .....	53	
Working with REALbasic's Electronic Language Reference .....	54	
Building a Custom Web Browser .....	57	
The RBBookFinder Browser .....	58	
Designing the User Interface .....	59	
Changing Windows and Control Properties .....	61	
Adding a Little REALbasic Code .....	62	
Testing Your Application .....	63	
Summary .....	64	

## PART 2 ■■■ Learning How to Program with REALbasic

<b>CHAPTER 3</b>	<b>Creating an Application's User Interface</b>	67
Building Application Windows .....	67	
Document .....	69	
Movable Modal .....	69	
Modal Window .....	70	
Floating Window .....	70	
Plain Box Window .....	71	
Shadowed Box Window .....	72	

Rounded Window .....	72
Global Floating Window .....	73
Sheet Window .....	73
Metal Window .....	74
Drawer Window.....	75
Changing the Default Window .....	75
Deleting Windows. ....	76
Encrypting and Decrypting Windows.....	76
Working with Controls .....	77
Adding Controls to Windows .....	78
Finding Lost Controls .....	78
Modifying Control Properties.....	78
Deleting Controls.....	79
A REALbasic Control Overview.....	79
The BevelButton Control .....	79
The Canvas Control.....	80
The CheckBox Control .....	80
The ComboBox Control.....	81
The ContextualMenu Control.....	81
The DatabaseQuery Control.....	81
The DataControl Control.....	82
The DisclosureTriangle Control.....	82
The EditField Control.....	82
The ExcelApplication Control.....	83
The GroupBox Control.....	83
The HTMLViewer Control.....	84
The ImageWell Control.....	84
The Line Control .....	85
The ListBox Control.....	85
The MoviePlayer Control .....	86
The NotePlayer Control .....	86
The OLEContainer Control .....	86
The Oval Control .....	87
The PagePanel Control .....	87
The Placard Control .....	88
The PopupArrow Control .....	88
The PopupMenu Control.....	88
The PowerPointApplication Control .....	89
The ProgressBar Control .....	89
The ProgressWheel Control.....	89

The PushButton Control . . . . .	90
The RadioButton Control . . . . .	90
The Rb3Dspace Control . . . . .	90
The RbScript Control . . . . .	90
The Rectangle Control . . . . .	90
The RoundRectangle Control . . . . .	91
The ScrollBar Control . . . . .	91
The Separator Control . . . . .	91
The Serial Control . . . . .	92
The ServerSocket Control . . . . .	92
The Slider Control . . . . .	92
The SpotlightQuery Control . . . . .	92
The SpriteSurface Control . . . . .	92
The StandardToolbarItem Control . . . . .	93
The StaticText Control . . . . .	93
The TabPanel Control . . . . .	93
The TCPSocket Control . . . . .	93
The Thread Control . . . . .	94
The Timer Control . . . . .	94
The ToolbarItem Control . . . . .	94
The UDPSocket Control . . . . .	94
The UpDownArrows Control . . . . .	94
The WordApplication Control . . . . .	94
Extending REALbasic Functionality by Adding New Controls . . . . .	95
Plug-Ins . . . . .	95
ActiveX . . . . .	95
Control Alignment . . . . .	96
Changing Tab Order . . . . .	97
Building a Desktop Clock . . . . .	98
Designing the User Interface . . . . .	99
Changing Window and Control Properties . . . . .	100
Adding a Little REALbasic Code . . . . .	101
Testing Your Application . . . . .	101
Summary . . . . .	101

<b>CHAPTER 4</b>	<b>Working with REALbasic Menus</b>	103
	Working with REALbasic Menu Bars . . . . .	103
	Examining Menu Components . . . . .	105
	The DefaultMenuBar . . . . .	106
	Adding a New Menu Bar and Assigning It to a Window . . . . .	108
	Adding Menus, Submenus, and Menu Items . . . . .	109
	Adding a New Menu . . . . .	109
	Adding Menu Items . . . . .	112
	Creating a Submenu . . . . .	115
	Previewing Your REALbasic Menus . . . . .	117
	Enhancing Menu Systems . . . . .	118
	Using Separator Bars to Organize Menu Items . . . . .	119
	Setting Up Shortcut Keys . . . . .	120
	Defining Accelerator Keys on Windows and Linux Menus . . . . .	121
	Using Menu Items to Trigger Command and Code Execution . . . . .	123
	Controlling Access to Menu Items . . . . .	126
	Reconfiguring Menu Organization . . . . .	126
	Moving Menus and Menu Items . . . . .	127
	Converting Menu Items to Menus . . . . .	127
	Removing Menu and Menu Items . . . . .	128
	Customizing the Apple and Macintosh Menus . . . . .	128
	Creating a StickyPad Application . . . . .	129
	Designing the User Interface . . . . .	130
	Supplying Application Code . . . . .	131
	Testing RBQuickNote . . . . .	133
	Summary . . . . .	133
<b>CHAPTER 5</b>	<b>Storing and Retrieving Application Data</b>	135
	Adding Comments to Your Code . . . . .	135
	Comments . . . . .	135
	Notes . . . . .	136
	Property Comments . . . . .	137
	Storing and Retrieving Data . . . . .	138
	Working with Variables . . . . .	139
	Working with Properties . . . . .	140
	Creating and Working with Variables . . . . .	142

Converting Between Data Types .....	144
Built-In Conversion Functions .....	145
String Manipulation Functions .....	145
Storing Data in Arrays .....	146
Loading Data into Arrays .....	147
Retrieving Data from Arrays .....	148
Changing the Size of Your Arrays .....	148
Working with Dictionaries .....	149
Constants .....	151
REALbasic's Built-In Constants .....	151
Defining Your Own Constants .....	152
Reserved Keywords .....	154
Creating a Starter Desktop Calculator .....	154
Designing the User Interface .....	155
Supplying Application Code .....	157
Testing RBCalculator .....	161
Summary .....	161
<b>CHAPTER 6 Making Decisions with Conditional Logic .....</b>	<b>163</b>
Implementing Conditional Logic .....	163
Working with the If...Then Statement .....	164
Single Line If...Then Statements .....	165
Multiple Line If...Then Blocks .....	165
The If...Then...Else Block .....	166
The If...Then...ElseIf Blocks .....	168
Nesting If...Then Blocks .....	168
The Select...Case Block .....	169
#If...#EndIf .....	171
REALbasic Operators .....	173
Comparison Operators .....	173
Mathematical Operators .....	174
Logical Operators .....	175
Creating a Computer Game .....	176
Putting Together the Game's User Interface .....	177
Defining Properties .....	180
Adding a Little Program Code .....	181
Testing RB Number Guess .....	185
Summary .....	186

<b>CHAPTER 7</b>	<b>Iterative Processing</b>	187
	Processing Data with Loops .....	187
	Do...Loop .....	188
	The While...Wend Loop .....	192
	The For...Next Loop .....	193
	The For...Each Loop .....	195
	Shortcuts for Creating Loops .....	197
	Guarding Against Endless Loops .....	199
	Creating a REALbasic Movie Player .....	200
	Assembling the Application's User Interface .....	201
	Adding the Program Code .....	203
	Testing RB Movie Player .....	206
	Summary .....	207
<b>CHAPTER 8</b>	<b>Object-Oriented Programming</b>	209
	An Introduction to Object-Oriented Programming .....	209
	Advantages of Working with REALbasic Classes and Subclasses .....	210
	Instantiating Objects from Classes and Subclasses .....	211
	Event-Driven Programming .....	218
	Working with Event Handlers .....	219
	Working with Menu Handlers .....	220
	Working with Modules .....	220
	Adding Modules to REALbasic Applications .....	221
	Scoping Modules Resources .....	222
	Adding a Property to a Module .....	222
	Adding a Method to a Module .....	222
	Adding a Constant to a Module .....	224
	Working with Windows .....	225
	Windows Properties .....	226
	Windows Constants .....	226
	Associating New Methods with Windows .....	226
	Building the RB Picture Viewer .....	231
	Putting Together the Application's User Interface .....	232
	Adding Custom Constants and Methods .....	235
	Adding a Little Program Code .....	236
	Testing RB Picture Viewer .....	238
	Summary .....	239

# PART 3 ■■■ Advanced Topics

<b>CHAPTER 9 Processing Text Files</b> .....	243
Working with Plain and Styled Text Documents .....	243
Defining File Types .....	243
Specifying File Types in Your REALbasic Applications .....	244
Working with File Types .....	245
Accessing Files and Folders .....	245
Specifying File or Folder Location .....	246
Accessing Special Folders .....	247
Using Open File and Folder Dialog Windows .....	247
Verifying Path and File or Folder Existence .....	249
Deleting Files and Folders .....	250
Process Text Files .....	250
Reading from Text Files .....	250
Writing to Text Files .....	252
Working with Styled Text .....	252
Reading Styled Text .....	253
Writing Styled Text to Files .....	253
Saving Files .....	254
Printing Files .....	255
Working with the Page Setup Dialog Window .....	255
Using the Print Dialog Window .....	256
Bypassing the Print Dialog Window .....	258
Printing Styled Text .....	258
Creating a REALbasic Word Processor .....	259
Putting Together the User Interface .....	259
Defining Supported File Types .....	262
Adding Custom Constants and Properties .....	263
Adding Code That Supports the Menu System .....	263
Adding Code That Supports the Window and Its Controls .....	268
Testing RB Word Processor .....	272
Summary .....	272

<b>CHAPTER 10 Working with Databases .....</b>	273
REALbasic's Database Support .....	273
Database Plug-Ins.....	274
Structured Query Language .....	274
Creating and Opening REAL SQL Databases .....	275
Creating a New REAL SQL Database from the IDE .....	275
Creating a Database in Code.....	276
Connecting to an Existing Database from the IDE.....	276
Connecting to an Existing Database in Code .....	277
Defining Database Schema.....	277
Adding Tables, Columns, and Indexes from the IDE.....	278
Adding Tables, Columns, Indexes, and Records in Code .....	281
Querying Database Data .....	283
Letting REALbasic Generate Your SQL Statements.....	283
Advanced SQL Query Statements.....	287
Changing Column Data .....	288
Developing Database Front-Ends.....	289
The DatabaseQuery Control.....	289
The DataControl.....	291
The RB Book Database .....	292
Creating the PersonalBookDB Database.....	293
Creating a Utility to Add New Books .....	296
Summary .....	299
<b>CHAPTER 11 Working with Graphics and Audio .....</b>	301
Adding Sound Effects to REALbasic Applications .....	301
Getting the User's Attention.....	302
Playing Audio Files .....	302
Giving Your Application a Voice .....	304
Making Music .....	305
Working with Graphics.....	310
REALbasic's Coordinate System.....	310
Displaying Graphic Files as a Window's Background Image.....	310
Drawing Custom Graphics.....	313
The Fun and Practical Side of Working with Graphics .....	317

Building an MP3 Player .....	317
Designing the User Interface.....	318
Setting Up the Menu System.....	319
Setting Up Property Values .....	319
Adding Program Code.....	319
Testing the RB MP3 Player .....	321
Summary .....	321
<b>CHAPTER 12 Debugging REALbasic Applications .....</b>	<b>323</b>
Tracking Down and Fixing Errors.....	323
Understanding Syntax Errors.....	324
Understanding Run-Time Errors.....	327
Understanding Logical Errors .....	328
Working with the REALbasic Debugger .....	328
Setting Breakpoints.....	329
Tracking Values.....	330
Using Break Points to Control Statement Execution .....	332
Developing Error Handlers .....	333
Handling Run-Time Errors with Exception Blocks.....	334
Handling Run-Time Errors with Try Blocks.....	337
Building a Network Connection Checker Application .....	338
Setting Up the User Interface .....	339
Adding Custom Properties and Methods.....	339
Adding a Little Program Code .....	341
Testing the Network Connection Checker.....	342
Summary .....	343

## PART 4 ■■■ Appendixes

<b>APPENDIX A Migrating Visual Basic Projects to REALbasic .....</b>	<b>347</b>
Porting Visual Basic Projects to REALbasic .....	347
Doing a Little Prep Work .....	349
Importing Visual Basic Projects .....	349
REALbasic's Project Converter Utility.....	349

<b>APPENDIX B</b>	<b>What's on the CD-ROM?</b>	351
	REALbasic Program Source Code	351
<b>APPENDIX C</b>	<b>What's Next?</b>	353
	Locating REALbasic Resources Online	353
	REALbasic University	353
	RBDocs	353
	RBGarage	353
	VBZone	354
	REALbasic Gazette	354
	Really Basic REALbasic	354
	REALOPEN	354
	Realgurus.com	354
	REALbasic Developer Magazine	354
	Joining REALbasic Mailing Lists	356
<b>INDEX</b>		357
