Introduction.....	xxiii
--------------------------	--------------

Chapter 1

Why Is Office So Gunked Up?.....	1
---	----------

Don't Spend Money on Upgrades, Just Degunk! 2	
What Is Gunk? 3	
Understanding How You Got So Gunked Up 4	
<i>Setup.exe Saves Files—Everywhere!</i> 5	
<i>Office's Unique File Management System</i> 6	
<i>Temporary Files That Turn into Gunk</i> 12	
<i>Upgrading through Several Versions of Office</i> 13	
Get Ready to Degunk! 14	

Chapter 2

Degunking Your Office Setup	15
--	-----------

Learn to Spot Gunk 16	
The Strategy behind Degunking 17	
<i>Important Questions to Ask Yourself</i> 18	
<i>Proper Installation Is the Key</i> 19	
<i>File Management Basics</i> 19	
<i>Making the Office Apps Perform Well Together</i> 20	
<i>Getting the Gunk out of Word, Excel, PowerPoint, and Outlook</i> 20	
<i>Fixing Things That Break in Office</i> 22	
<i>Making Office More Secure</i> 22	
<i>Enhancing Office</i> 22	
The Degunking 12-Step Program 23	
Summing Up 23	

Chapter 3

Performing a Gunk-Free Installation or Upgrade..... 25

- Choose the Office Edition You Need 26
 - Assessing Your Needs* 27
 - Office Versions and Features* 28
- Upgrade Pre-2000 Office 30
 - Why Should You Upgrade?* 30
 - Office 2003 Preview* 31
- Decide to Upgrade or Reinstall Office 33
 - Remove the Old Version, or Just Install on Top?* 34
- Prepare for the Installation 34
 - Make Sure Your Computer Meets the Requirements* 34
- Get Windows Ready Before Installing Office 38
- Perform a Custom Installation 42
 - Using the Installation Discs* 42
 - Select an Installation Location* 43
 - Select Components to Install* 44
 - Install to Hard Disk, or Install on First Run?* 44
 - Run Setup to Remove Useless Components* 45
- What to Do After the Installation 46
 - Activate and Register Your Applications* 46
 - Check for Product Updates* 47
 - How to Get Help* 47
- Summing Up 48

Chapter 4

Organizing Office-Related Files and Folders 49

- Clean Up the Default Folders 50
- Take a Look at What's Gunking Up Your PC 51
- Delete Unnecessary Files and Folders 52
 - Restore Order to the Default Folders* 53
 - Straighten Up Shared Folders* 54
 - Cleanse the Root Directory* 54
 - Clean Up Old ZIP Files* 54
 - Search and Destroy by File Extension* 55
 - Locate and Delete Duplicate Files* 55
 - Remove Temporary Files* 56
 - Eliminate Vacant User Accounts and Related Files* 59
 - Degunk Your Outlook Mail Folders* 60
- Organize What Remains 64
 - Create Subfolders to Personalize the Default Folders* 64
 - Use Descriptive Names* 66

<i>Populate Your Subfolders</i>	69
<i>Prepare to Empty the Recycle Bin</i>	69
<i>Defragment Your Hard Drive</i>	70
Summing Up	71

Chapter 5

Degunking Office's Common Features 73

Hide the Annoying Office Assistant	74
Change the Default Open and Save As Folders	74
Set Up Default Views to Better View Your Documents	75
<i>Customize the Look of the Word Window</i>	76
<i>Customize Views in Excel</i>	78
<i>Customize Views in PowerPoint</i>	80
<i>Personalize Outlook Views</i>	81
Simplify and Customize Your Menus	87
<i>Change Personalized Menus Settings</i>	87
<i>Clean Up Your Menus</i>	88
Streamline Your Toolbars	89
<i>Add and Remove Buttons from Toolbars</i>	89
<i>Create Your Own Toolbars</i>	91
Take a Shortcut Using Keyboard Shortcuts	92
<i>Useful Shortcut Keys</i>	92
Navigation Shortcuts	97
<i>Keyboard Navigation Shortcuts</i>	97
Degunk Application Printing	99
<i>Tweaking Printing in Word</i>	99
<i>Practice No-Fuss Printing in Excel</i>	101
<i>Specify Print Settings in PowerPoint</i>	101
<i>Get to Know Outlook Printing Options</i>	102
Summing Up	104

Chapter 6

Degunking Microsoft Word 105

Understand the Uses of Word	106
<i>How Word Works</i>	107
Important Settings to Customize After Installation	108
<i>Enable AutoRecover</i>	110
<i>Enable Background Saves</i>	112
<i>Enable Backup Copies</i>	113
<i>Show More Recently Used Documents on the File Menu</i>	115
<i>Change the Default Margins</i>	116
<i>Make Text Boundaries Visible</i>	118
<i>Make the Style Area Visible</i>	119

<i>Customize AutoCorrect Features</i>	121
<i>Configure Word to Use Picture Placeholders in Large Documents</i>	122
<i>Customize the Spelling Checker Dictionary</i>	123
Open Documents That Are Locked for Editing	124
Use Styles to Format Content	126
<i>Understand Types of Formatting</i>	126
<i>Work Efficiently with Paragraphs</i>	127
<i>Standardize with Styles</i>	127
<i>A Few More Formatting Tips</i>	130
Create, Customize, and Organize Templates	131
<i>Using Normal.dot</i>	132
<i>User and Workgroup Templates</i>	134
<i>Create, Modify, and Load Templates</i>	134
Summing Up	137

Chapter 7

Degunking Microsoft Excel 139

Top-10 Changes to Make	141
<i>Group and Ungroup Sheets</i>	141
<i>Change the Default Number of Sheets in a New Workbook</i>	142
<i>View Two Sheets Simultaneously</i>	143
<i>View Multiple Formulas Simultaneously</i>	145
<i>Copy Formatting from Cell to Cell</i>	146
<i>Create Styles Based on Cell Contents</i>	146
<i>Enable Word Wrapping in Cells</i>	147
<i>Pick from a List to Enter Data</i>	148
<i>Calculate Values Quickly Using the Status Bar Shortcut</i>	149
<i>Change Cell Selection Behavior</i>	149
Use AutoSave and AutoRecover	150
Use Functions to Degunk Your Formulas	152
<i>Use Named Ranges in Functions</i>	154
Use Workspace Files	156
Use Templates to Create Blueprints for Your New Files	159
<i>Where Have All the Templates Gone?</i>	160
<i>Templates Hold a Lot of Stuff</i>	161
<i>Create a Default Workbook Template and Worksheet Template</i>	162
Use Excel for Simple Databases	163
Summing Up	165

Chapter 8

Degunking Microsoft PowerPoint 167

Top-10 Changes to Make	168
<i>Turn Off Fast Saves</i>	169
<i>Trim Picture Files</i>	169

<i>Embed Only the Fonts You Need</i>	172
<i>Reduce the Number of Undos Available</i>	173
<i>Set the AutoRecover Interval</i>	174
<i>Turn Off Automatic Layout for Inserted Objects</i>	175
<i>Turn Off Background Printing</i>	176
<i>Review Slide Shows in a Mini Window</i>	177
<i>Automatically Start Presentations in Slide Show View</i>	178
<i>Optimize Presentation Performance</i>	179
Improve the Presentations You Create	184
<i>Learn to Use Layouts</i>	184
<i>Apply Design Templates</i>	185
There's More Than One Way to Present	192
Summing Up	193

Chapter 9

Degunking Microsoft Outlook 195

Make These Changes After Installation	196
<i>Set Up an E-Mail Folder Hierarchy</i>	197
<i>Set Up an AutoArchive Schedule</i>	198
<i>Alphabetize Contacts in Last-Name-First Order</i>	201
<i>Organize Your Contacts by Category</i>	201
<i>Use Color-Coding to Stay Organized</i>	202
<i>Automatically Save Copies of Sent and Unsent Messages</i>	207
<i>Enable the Spell Checking Feature</i>	209
<i>Choose the Format for Sending Messages</i>	209
<i>Set the Mail Checking Period</i>	210
<i>Change the Folder Outlook Opens In by Default</i>	212
Practice Effective E-Mail Management	212
<i>Use Rules to Sort Your E-Mail Messages</i>	213
<i>Get Rid of Annoying Spam</i>	215
<i>Set Up a Backup Schedule</i>	219
Customize Outlook to Work for You	221
<i>Empty the Deleted Items Folder Automatically</i>	221
<i>Send an Office Document without Opening Outlook</i>	221
<i>Place Notes on Your Desktop</i>	222
<i>View Your Inbox and Calendar Simultaneously</i>	222
<i>Hide Lengthy Headers When Printing Messages</i>	223
Create Custom Views	225
Use the Journal to Track Long-Distance Calls	226
What to Do When Your Calendar Gets Gunked Up	227
<i>Create Additional Calendars</i>	227
<i>Display Nonconsecutive Dates in Your Calendar</i>	228
<i>Schedule E-Mail Responses in Your Outlook Calendar</i>	229
Summing Up	229

Chapter 10

Improving How Office Applications Work Together 231

- Transfer Data between Your Applications 232
 - Understand the Office Clipboard* 233
 - Linking and Embedding Objects* 236
 - Drag and Drop between Files* 240
 - Create a Hyperlink* 241
- Degunk Sharing Information by E-Mail 244
 - Send to Mail Recipient* 244
 - Send to Mail Recipient (for Review)* 245
 - Send to Mail Recipient (as Attachment)* 245
 - Send to Routing Recipient* 245
 - Send to Recipient Using Internet Fax Service* 246
 - Send to Recipient Using a Fax Modem* 246
 - Send to Microsoft Office Word* 246
- Make Word, Excel, PowerPoint, and Outlook Work Together 247
 - Create a PowerPoint Presentation from a Word Outline* 247
 - Write a Letter to an Outlook Contact Using Word* 248
 - Use Word as Your E-Mail Editor* 249
 - Import Text Files into an Excel Worksheet* 249
 - Converting Non-numbers to Actual Values* 251
 - Use Outlook as an Information Manager* 251
 - Import Contacts from Another Program* 254
- Perform a Mail Merge Easily 255
 - Use Excel as a Mail Merge Data Source* 258
- Summing Up 258

Chapter 11

Securing Office 259

- Incorporate Security Best Practices 260
 - Use Microsoft Resources to Bolster Your Defenses* 260
- Follow the Top 10 Ways to Secure Office 261
 - Download Documents Only from Trusted Sources* 262
 - Don't Open Suspicious-Looking E-Mail Messages or File Attachments* 262
 - Verify Document Authenticity by Examining Attached Digital Certificates and Signatures* 263
 - Remove Personal Information from Your Documents* 263
 - Make Sure Deleted Information Is Completely Removed* 264
 - Erase "Invisible" Information* 265
 - Review Revision Marks for Tracked Changes* 266
 - Snap a Lock on Docs Using Protection Features* 267
 - Require a Password to Open or Modify Sensitive Documents* 271

<i>Recommend Opening Your Documents as Read-Only</i>	273
Prepare Documents for Review	273
Securing Word Documents for Distribution	274
<i>Prevent Users from Changing a Form</i>	275
<i>Use Versions to Trace Changes Made to a Document</i>	276
Securing PowerPoint Presentations for Distribution	277
<i>Use Pack and Go</i>	278
<i>Use PowerPoint Viewer</i>	278
Keep Macro Viruses at Bay	278
<i>Determine Whether You Have a Macro Virus</i>	280
<i>How to Deal with a Macro Virus</i>	280
<i>Only You Can Prevent Macro Viruses</i>	283
Summing Up	289

Chapter 12

Backing Up and Restoring Office..... 291

Determine What You Should Back Up	292
<i>Storage Options for Backed-Up Data</i>	294
Where to Store Your Backups	297
Use File Compression	297
How to Create a Backup	298
<i>Create a Manual Backup</i>	299
<i>Use the Backup Utility</i>	301
<i>Write Backup Files to a CD or DVD</i>	308
Use the Save My Settings Wizard	309
Schedule Your Backups	311
<i>Perform a Manual Backup</i>	311
<i>Schedule a Job Using the Backup Utility</i>	312
<i>Using the Scheduled Tasks Utility</i>	313
Protect Your Backups	313
Restore! Restore!	315
<i>Restore Using Backup</i>	315
<i>Use Windows System Restore</i>	317
Summing Up	318

Chapter 13

Fixing Things That Break in Office 321

Understand the Categories of Errors	322
<i>Why Errors Arise</i>	323
<i>What to Do When Errors Arise</i>	323
Understand the Troubleshooting Process	324
<i>Gather Information</i>	324
<i>Take Appropriate Action</i>	326

Troubleshoot Poor Office Performance	332
Fix Broken Templates	333
<i>Repair Normal.dot in Word</i>	333
<i>Troubleshoot Workbook and Worksheet Templates in Excel</i>	335
<i>Troubleshoot Templates in PowerPoint</i>	336
Troubleshoot Office Problems	337
<i>Confounding Factors</i>	337
<i>Use Office Document and Application Recovery</i>	338
<i>Use the Open and Repair Command</i>	339
<i>Troubleshoot Damaged Word Documents</i>	339
<i>Troubleshoot Damaged Excel Files</i>	347
<i>Troubleshoot PowerPoint Problems</i>	349
<i>Troubleshoot Outlook Problems</i>	350
Prevent File Corruption	353
Summing Up	354

Appendix A

Enhancing Office with Add-ins and Third-Party Tools 355

About Add-ins	355
Add-In Resources	357
Add-Ins from Microsoft	357
<i>Malicious Software Removal Tool</i>	358
<i>Microsoft Windows AntiSpyware</i>	359
<i>Microsoft Outlook Personal Folders Backup</i>	359
<i>Microsoft Office Remove Hidden Data</i>	360
Third-Party Tools	361
<i>Genie Backup Manager</i>	361
<i>OfficeIns</i>	362
<i>Hidden File Detector</i>	362
<i>Outlook Attachment Sniffer</i>	363
<i>DocRepair</i>	363

Appendix B

Automate Office Using Macros..... 365

Create a Macro	366
<i>Plan Your Macro</i>	366
<i>Record the Macro</i>	367
<i>Run the Macro</i>	368
<i>Edit the Macro</i>	368

Index 369
