Ikarus OS & Ikarus NMS **1**

System User's Guide **1**

Version Issue: Version 1.0b 1

Last Update: 1

1 Introduction **11**

2 Product Overview **11**

2.1 Compatibility and Requirements 11

2.2 Features List 11

2.2.1 Ikarus Network Management System 11

2.2.2 Ikarus Operating System 12

2.3 Ikarus NMS Installation Guide 12

2.4 Ikarus OS Installation Guide 13

2.4.1 Download Ikarus O.S 13

2.5 Host System Requirements and Installation Procedure 13

2.5.1 Using Raw Image on a Compact Flash (CF): 13

2.5.2 Using Raw Image on a Hard drive: 13

2.5.3 Using ISO Image: 14

2.6 Connect and Configure 14

2.6.1 Ikarus Initial State 14

2.6.2 Ikarus Access Options 15

3 Ikarus OS Management via INMS **17**

3.1 Introduction 17

3.2 Network Topology 17

3.2.1 Ikarus Node Insertion 18

3.3 Ikarus Node Management 20

4 IP Networking Configuration **22**

4.1 Left Frame: 22

4.2 Top Frame:.....23
4.3 Center Frame:.....24
4.4 Bottom Frame.....24
4.4.1 Network Bridge.....24
4.4.2 Virtual Interfaces.....25
4.5 Table view.....26

5 Static IP Routing.....28

5.1 Introduction.....28
5.2 Ikarus Static IP routing configuration.....28
5.2.1 Routing Tables.....28
5.2.2 Routing Entries Handling.....30
5.3 Ikarus Static Rules.....32
5.3.1 Introduction.....32
5.3.2 Rule Entries Handling.....32

6 Wireless Configuration.....35

6.1 General Description.....35
6.2 Operational Modes.....37
6.2.1 Access Point.....37
6.2.2 WDS mode.....39
6.2.3 Repeater Mode.....40
6.2.4 AP Client and Station Mode.....42
6.3 Radio Settings.....44
6.4 Security Settings.....47
6.4.1 WEP configuration.....47
6.4.2 WPA Configuration.....48
6.4.3 Access Control List.....50
6.5 Outdoor Settings.....51
6.6 Setting Country Code.....52
6.7 Site Survey Operation.....53
6.8 Wireless topologies Scenarios.....56
6.8.1 How to make a Point To Point Link.....56
6.8.2 BSSID extended Repetition.....58

7 Firewall and NAT.....60

7.1 Firewall and NAT Chains 60
7.2 Field explanation....62
7.2.1 Firewall Matching fields 62
7.2.2 NAT Matching fields 67
7.2.3 Examples....70

8 DHCP 75

8.1 Introduction....75
8.2 DHCP SERVER....75
8.2.1 Lease Times 78
8.3 DHCP CLIENT....79
8.4 DHCP RELAY....79

9 WAN Configuration....81

9.1 PPPOE CLIENT 81
9.2 PPTP CLIENT 84

10 Bandwidth Manager 88

10.1 General....88
10.2 Field explanation....88
10.2.1 Shaped IP: 88
10.2.2 Source/Destination IP: 89
10.2.3 Source/Destination Port: 89
10.2.4 Bandwidth Type:....89
10.2.5 Peer To Peer:....89
10.2.6 Interface: 89
10.2.7 Bandwidth limit: 89
10.3 Examples....89
10.3.1 Limiting bandwidth of whole subnets....89
10.3.2 Limiting Peer to Peer Traffic 93
10.3.3 Tree-based mode: Limiting a host to some rate, but for a specific port use a smaller rate.....96

11 Ikarus HOTSPOT wizard 99

11.1 General HotSpot Description....99
11.2 HotSpot Main Panel....99
11.2.1 Enable HotSpot: 99

11.2.2 Status: 99
11.2.3 Admin MAC: 99
11.2.4 Users Info 100
11.2.5 Radius Statistics 100
11.3 Wizard Configuration 100
Wizard configuration is initialized by pressing "Start Wizard" button in the corrensponding configuration panel. 100
11.3.1 Wan: 100
11.3.2 LAN: 101
11.3.3 DHCP: 101
11.3.4 NAT & Protection: 102
11.3.5 Wireless: 106
11.3.6 Radius: 106
11.3.7 Authentication Type: 107
11.3.8 Walled Garden: 108
11.3.9 Advertisement: 108
11.3.10 Web customization: 108
11.3.11 Summary: 109
11.3.12 Submit: 109
11.4 Back end Radius Configuration 109
11.5 Example 111
11.5.1 STEP 1: 113
11.5.2 STEP 2: 113
11.5.3 STEP 3: 113
Clicking *Next* will redirect user to the next panel. 114
11.5.4 STEP 4: 114
Clicking *Next* will redirect user to the next panel. 115
11.5.5 STEP 5: 115
Clicking *Next* will redirect user to the next panel. 116
11.5.6 STEP 6: 116
Clicking *Next* will redirect user to the next panel. 117
11.5.7 STEP 7: 117
Clicking *Next* will redirect user to the next panel. 118
11.5.8 STEP 8: 118
Clicking *Next* will redirect user to the next panel. 120
11.5.9 STEP 9: 120
Clicking *Next* will redirect user to the next panel. 120
11.5.10 STEP 10: 121

Clicking *Next* will redirect user to the next panel. 121
11.5.11 STEP 11: 121
Clicking *Next* will redirect user to the next panel. 122
11.5.12 STEP 12: 122
Clicking *Next* will redirect user to the next panel. 123
11.5.13 STEP 13: 123
11.5.14 STEP 14: 124
11.5.15 STEP 15: 125
11.6 Troubleshooting 130

12 System Services Configuration 132

12.1 Services Overview 132
12.2 SNMP 132
12.3 HTTP 133
12.4 SSH 134
12.5 NTP 135
12.6 Administrator Security Settings 137

13 License Manager 138

14 Discovery Manager 139

15 Mrtg Support 140

16 Ikarus Monitoring and Statistics 141

16.1 Introduction 141
16.2 Status Info 141
16.3 Current Throughput 141
16.4 Packet Statistics 142
16.5 ARP table entries 143
16.6 Open connections: 144
16.7 System properties: 144
