Introduction xxi

Chapter 1: Introducing Microsoft Expression Web 1

Familiarizing Yourself with the Interface 2
The Menu Bar 5
The Development Window 7
The Development Area 8
The Tabbed File Chooser 10
Show Design, Split, and Code View 10
The Quick Tag Selector 11
Task Panes 13
Toolbars 16
Context Menus 19
Summary 20

Chapter 2: Building a Web Page 21

Creating a New Web Page 21
Setting Page Properties 24
General Properties 24
Formatting Properties 26
Advanced Properties 27
Custom Properties 28
Language Properties 29
Working with Text 29
Copying, Pasting, and Inserting Text from an External Source 30
Line Breaks and Paragraph Breaks 33
Applying Headings 35
Choosing a Font 37
Setting a Font Size 39
Text Styles 40
Text Alignment and Indentations 42

Working with Lists 43
Highlighting and Setting the Text Color 45
Applying Borders 47
Inserting a Horizontal Line 49
Checking the Spelling of a Web Page 50
Previewing Your Web Page in the Browser 53
Summary 56
Exercise 56

Chapter 3: Working with Web Sites 57

The Importance of Working with Web Sites 58
Creating a New Web Site 59
Working with the Folder List Task Pane 62
Creating New Folders and Pages 62
Setting the Home Page 65
Renaming and Deleting Files 66
Modifying Site Settings 66
General Settings 67
Preview in Browser Settings 67
Advanced Settings 68
Language Settings 68
Database Settings 69
Publishing Your Web Site 69
The Publish Web Site Dialog 69
Using the Copy Web Site Window 82
Deploying Web Sites with Personal Web Packages 87
Summary 90
Exercise 90

Chapter 4: Working with Images, Media, and Hyperlinks 93

Inserting Images into Your Web Page 94
Setting General Picture Properties 96
Using the Tag Properties Task Pane to Modify Image Properties 100
Using the Pictures Toolbar to Modify Image Properties 103
Editing an Image with Microsoft Office Picture Manager 106
Changing the Picture File Type 109
Linking Pages Within Your Web Site 110
Linking Text and Images to an Existing Web Page 111
Linking to a Bookmark within a Web Page 114
Linking to an E-mail Address 116
Creating Multiple Links Within an Image 117

Using Interactive Buttons 120
Managing Web Site Hyperlinks 124
Summary 126
Exercise 127

Chapter 5: Page Formatting Using Cascading Style Sheets 129

Introduction to Cascading Style Sheets 130
CSS Versus HTML 133
Working with CSS in Expression Web 135
Defining How CSS Is Created and Applied Within Expression Web 135
Defining Classes Within an External Style Sheet — Creating a Style Rule 138
Applying Styles by Using the Apply Styles Task Pane and Style Toolbar 152
Managing Styles with the CSS Properties and Manage Styles Task Panes 157
Designing Styles by Redefining HTML Tags 159
Using Contextual Selectors 160
Attaching Existing Style Sheets to Web Pages 164
Working with CSS Reports 165
Summary 166
Exercise 166

Chapter 6: Web Page Structuring Techniques by Using Tables 169

Inserting and Working with Tables 170
Selecting Table Elements 175
Modifying Table Properties 176
Formatting Tables Using Table AutoFormat 190
Inserting and Working with Layout Tables 192
Drawing Tables 193
Drawing Cells 198
Summary 200
Exercise 201

Chapter 7: Advanced Page Structuring Techniques by Using Layers and CSS 203

Introduction to Layers 204
Working with Layers 205
Inserting a Layer 205
Inserting Content into Layers 207
Modifying Layer Properties with the Positioning Toolbar 209
Modifying Layer Properties with the Layers Task Pane 209
Drawing a Layer 211

Nesting Layers 212
Adding Borders and Shading to Layers 214
Deleting a Layer 217
Designing Table-less Web Sites by Using Layers and CSS 218
Designing Layers Using a Style Sheet 218
Inserting DIV Tags 223
Working with Contextual Selectors 226
Summary 227
Exercise 229

Chapter 8: Adding Interactivity with Behaviors 231

Adding Client-Side Interactivity with Behaviors 232
The Call Script Behavior 238
The Change Property and Change Property Restore Behaviors 238
The Check Browser Behavior 243
The Check Plug-in Behavior 244
The Go To URL Behavior 245
The Jump Menu and Jump Menu Go Behaviors 246
The Open Browser Window Behavior 248
The Play Sound Behavior 250
The Preload Images Behavior 251
The Set Text Behaviors 252
The Swap Image and Swap Image Restore Behaviors 252
Summary 254
Exercise 255

Chapter 9: Working with HTML Forms and Form Controls 257

An Introduction to HTML Forms 257
Working with Forms and Form Controls 260
Input (Text) and Input (Password) 264
Text Area 266
Input (Checkbox) 268
Input (Radio) 268
Drop-Down Box 270
Input (Button), Input (Submit), and Input (Reset) 273
Testing the Form 274
Other Controls to Consider 275
Summary 282
Exercise 282

Chapter 10: Introduction to Web Application Development 285

Terminology 286
Introduction to Web Applications 288
Client-Side Technologies 290
The Web Server 291
Installing IIS 293
Expression Web's Built-In Web Server 296
Configuring the Web Server in Expression Web 296
Server-Side Technologies 298
.NET and the .NET Framework 298
Installing the .NET Framework and ASP.NET 299
Creating a Simple ASP.NET Page 301
Expression Web's ASP.NET Integration 303
The Database 305
Database Options 307
The Vecta Corp Database 309
The Structured Query Language 312
The Dynamic Vecta Corp Web Site 313
Summary 314

Chapter 11: Accessing and Displaying Database Data 315

Connecting to a Data Source 316
Connecting to an Access Database 318
Attaching your SQL Server 2005 Express Edition Database 321
Building the Download Patches Page 323
Using DataSource Controls 324
Using List Bound Controls 328
Using Data Controls 331
Summary 353
Exercise 354

Chapter 12: Inserting, Editing, and Deleting Database Data 355

Building an Administration Page 356
Configuring a Data Source Control to Allow Inserts, Updates, and Deletes 357
Working with the FormView Control 359
Modifying and Deleting Database Data Using the GridView Control 363
Summary 368
Exercise 368

Chapter 13: Validating User Input 371

Client-Side Versus Server-Side Validation 372
Using Validation Controls 375
The RequiredFieldValidator Control 376
The CompareValidator Control 378
The RangeValidator Control 380
The ValidationSummary Control 382
The RegularExpressionValidator Control 383
The CustomValidator Control 385
Summary 387
Exercise 387

Chapter 14: Securing Your Web Applications 389

Securing the Vecta Corp Site 390
Configuring Application Services 392
Configuring Forms Authentication 394
Creating the Login Page 398
Working with Login Controls 400
Summary 412

Chapter 15: Working with XML Data 413

Introduction to XML and XSL 413
Expression Web's Visual XML Authoring Environment 417
Creating an XML Document 418
Binding XML Data 420
Working with RSS Feeds 425
Summary 428

Chapter 16: Building Accessible and Standards-Compliant Web Sites 429

Accessibility Standards 430
Standards Resources 430
Conform with Standards 433
Checking Accessibility 437
Accessibility Reference 441
Image Tests 441
Imagemap Tests 442
Color and Style Tests 442

Form and Scripting Tests 443
Table and Frame Tests 444
Multimedia and Applet Tests 445
Other Accessibility Tests 446
Summary **447**

Index **449**
