

Contents at a Glance

<i>Introduction</i>	1
<i>Book I: Getting Started</i>	7
Chapter 1: Cruising Around the Dreamweaver 8 Workspace	9
Chapter 2: Planning and Designing Your Site.....	31
Chapter 3: Creating and Managing Sites.....	41
<i>Book II: Mastering the Basics</i>	53
Chapter 1: Creating Documents.....	55
Chapter 2: Working with Text	67
Chapter 3: Inserting Graphics.....	83
Chapter 4: Making Links with Text and Images	101
Chapter 5: Adding Flash, Movies, Sound, and More	115
Chapter 6: Creating Tables for Layout	141
Chapter 7: Building Fabulous Forms.....	161
<i>Book III: Working Like the Pros</i>	185
Chapter 1: Looking Good with Cascading Style Sheets (CSS)	187
Chapter 2: Building Sites with Templates	223
Chapter 3: Using Library Items and Server-Side Includes	257
Chapter 4: Creating Code Snippets and History Panel Commands	275
Chapter 5: Integrating Dreamweaver with Fireworks	293
<i>Book IV: Energizing Your Site</i>	311
Chapter 1: Working with Layers	313
Chapter 2: Jazzing Up Pages with JavaScript Behaviors	335
Chapter 3: Designing Pages with Frames	387
Chapter 4: Introducing Timelines.....	417
Chapter 5: Making Your Pages XHTML Compliant.....	433
<i>Book V: Publishing Your Site</i>	443
Chapter 1: Using Reports to Test Your Site before Publishing	445
Chapter 2: Keeping Your Code Clean.....	469
Chapter 3: Preparing to Publish Your Files	485
Chapter 4: Publishing Your Web Pages.....	501

<i>Book VI: Working Collaboratively</i>	<i>513</i>
Chapter 1: Working Efficiently with a Team	515
Chapter 2: Setting Up and Connecting to a Contribute Site.....	533
Chapter 3: Managing a Contribute Site.....	547
<i>Book VII: Building Web Applications</i>	<i>555</i>
Chapter 1: Building Web Applications	557
Chapter 2: Configuring Database Connections for PHP	573
Chapter 3: Configuring ASP Database Connections.....	583
Chapter 4: Configuring ASP.NET Database Connections	593
Chapter 5: Configuring JSP Database Connections.....	603
Chapter 6: Configuring ColdFusion Database Connections	611
Chapter 7: Dealing with Database Issues	621
<i>Book VIII: Making Pages Dynamic.....</i>	<i>631</i>
Chapter 1: Preparing Dynamic Content Sources	633
Chapter 2: Using Dynamic Content in Your Web Pages	645
Chapter 3: Previewing and Testing Your Dynamic Pages	657
Chapter 4: Building Dynamic Forms	667
Chapter 5: Advanced Dynamic Data Presentation	675
<i>Book IX: Developing Applications Rapidly</i>	<i>689</i>
Chapter 1: Building Master and Detail Pages.....	691
Chapter 2: Creating Search and Results Pages	709
Chapter 3: Building Record Insert Pages.....	723
Chapter 4: Developing Record Update and Delete Pages.....	735
Chapter 5: Using Advanced Data Manipulation Tools	755
Chapter 6: Restricting Site Access	763
<i>Index</i>	<i>777</i>

Table of Contents

Introduction..... 1

About This Book.....	1
Conventions Used in This Book	2
What You Don't Have to Read	2
Assumptions About You.....	3
How This Book Is Organized.....	3
Book I: Getting Started	3
Book II: Mastering the Basics.....	3
Book III: Working Like the Pros.....	3
Book IV: Energizing Your Site.....	3
Book V: Publishing Your Site.....	4
Book VI: Working Collaboratively.....	4
Book VII: Building Web Applications	4
Book VIII: Making Pages Dynamic	4
Book IX: Developing Applications Rapidly.....	4
Icons Used in This Book.....	5
Where to Go from Here.....	5

Book 1: Getting Started..... 7

Chapter 1: Cruising Around the Dreamweaver 8 Workspace 9

Choosing a Workspace Layout	9
Windows workspace layouts	9
Macintosh workspace layouts	10
Getting to Know the Dreamweaver Workspace.....	11
Exploring the Document Window	14
Document toolbar	14
Rulers	16
Grids.....	16
Guides	17
Status bar	17
Understanding the Panels and Properties Inspector	18
Using the Insert bar.....	20
Using the Properties inspector.....	20
Working with the Files panel.....	21
Accessing other panels and panel groups	23
Customizing the Workspace	23
Setting Dreamweaver Preferences	24

Finding Help	25
Using the Dreamweaver Help files (F1)	25
Working with the Reference panel	27
Visiting the Dreamweaver Support Center	28
Chapter 2: Planning and Designing Your Site	31
Understanding the Web Design Workflow.....	31
Knowing Your Audience	32
Defining the client's expectations	32
Exploring the audience's expectations.....	33
Examining Issues That Impact the Site Design.....	33
Monitor resolution	35
Browser optimization	36
Content	37
Planning the Site Layout.....	38
Designing and Optimizing Graphics	39
Chapter 3: Creating and Managing Sites	41
Understanding General Web Site Structure	41
Web site structure	41
Root-level organization.....	42
Setting Up a Site with a Wizard.....	44
Setting Up a Site Using the Advanced Method.....	46
Remote Info	49
Testing Server	49
Cloaking	49
Design Notes	50
Site Map Layout	50
File View Columns	50
Contribute	50
Managing Multiple Sites	50
Duplicating sites	51
Exporting and importing sites	51
Removing sites from the managed-sites list	52
 Book 11: Mastering the Basics	 53
Chapter 1: Creating Documents	55
Creating a New Document.....	55
Saving Documents.....	58
Saving a copy of a file	59
Saving multiple documents at once	60
Reverting to a previous version of a file.....	60

Opening Existing Files	60
Setting Page Properties	61
Understanding Invisible Page Elements	62
Importing Tabular Data Files	64
Importing Word and Excel Files (Windows Only)	65
Chapter 2: Working with Text	67
Adding Text	67
Editing Text	68
Removing Text	69
Pasting Text from Another File	69
Setting Text Properties in the Properties Inspector	70
Creating Inline Style Sheets	74
Inserting Special Characters	75
Creating Lists	76
Editing with the Find and Replace Tool	77
Searching for tags and attributes	77
Searching for text in specific tags	80
Saving and reusing searches	81
Using regular expressions in your searches	82
Chapter 3: Inserting Graphics	83
Inserting Images in Your Web Page	84
Using the Insert bar	84
Using the Insert menu	86
Using the Assets panel	86
Using the Files panel	86
Editing, Deleting, and Moving Inserted Images	87
Using an Image Placeholder When a Graphic Isn't Ready	87
Setting Image Attributes with the Properties Inspector	88
Naming your images	89
Specifying the width and height of images	89
Resizing and resetting images	90
Adding vertical or horizontal padding	90
Adding image links	90
Adjusting targets	90
Specifying a low resolution image to appear first	91
Adding image borders	91
Providing Alternate text	91
Aligning images	92
Using the image-editing buttons	93
Creating Interactive Images	94
Adding rollover images	94
Creating image maps	95
Inserting a navigation bar with images	98
Inserting Fireworks HTML	100

Chapter 4: Making Links with Text and Images101

Understanding Hyperlinks	101
Creating Text Links	103
Making Image Links	104
Inserting E-Mail Links	105
Creating Named Anchor Links	106
Step 1: Lay down the named anchor	107
Step 2: Link to the named anchor	108
Creating Temporary Links	109
Setting Link Targets	110
Editing and Deleting Links	110
Editing links	110
Deleting links	111
Using the Tag Chooser	111
Coding Links by Hand	113

Chapter 5: Adding Flash, Movies, Sound, and More115

Flash Elements You Can Add to Your Web Site	115
Inserting Flash Movies (SWFs)	116
Adding a Flash movie to your page	116
Setting Flash movie attributes	118
Creating Flash Buttons	119
Inserting a Flash button on your page	119
Editing a Flash button	121
Inserting Flash Text	121
Inserting FlashPaper	124
Inserting Flash Video	125
Adding Shockwave Movies, Java Applets, and ActiveX Controls	130
Setting Shockwave movie properties	131
Setting Java applet properties	131
Setting ActiveX control properties	132
Adding Netscape Navigator Plug-ins	135
Setting Netscape Navigator plug-in properties	135
Playing Netscape Navigator plug-ins	136
Acceptable Sound File Formats	136
Adding Other Video and Sound to a Page	138
Linking versus embedding video	138
Linking versus embedding sound	138
Launching a Media External Editor	139

Chapter 6: Creating Tables for Layout141

Creating Tables	141
Inserting a basic table in your page	143
Drawing a table in Layout view	144

Turning On Table Visual Aids	146
Formatting Tables with the Properties Inspector	147
Using Preformatted Table Designs	149
Merging and Splitting Rows and Columns	150
Merging cells	152
Splitting a cell	152
Setting Table Width and Heights	153
Adding Rows and Columns to a Table	154
Adding a row	154
Adding a column	154
Adding multiple rows or columns	154
Deleting rows and columns	155
Inserting Text and Images in Table Cells	155
Formatting Individual Table Cells	155
Changing Table Measurements from Pixels to Percentages	156
Importing Tabular Data	157
Sorting Information in a Table	158
Working with Tables Created by Other Programs	159

Chapter 7: Building Fabulous Forms161

Organizing Data in Your Form	162
Creating a Fabulous HTML Form	163
Adding and Labeling Form Fields	166
Text fields	166
Hidden fields	169
Check boxes	170
Radio buttons	171
Lists and menus	174
Jump menus	176
Image fields	176
File upload fields	177
Buttons	178
Label tags	180
Fieldset tags	181
Validating a Form with JavaScript	183

Book III: Working Like the Pros..... 185

Chapter 1: Looking Good with Cascading Style Sheets (CSS)187

Understanding Cascading Style Sheets (CSS)	188
Exploring Different Style Sheet Types	189
Internal styles	190
External styles	191
Inline styles	192

Working with the CSS Styles Panel.....	192
All mode.....	193
Current mode.....	193
CSS Styles panel viewing buttons.....	194
Looking at What Styles You Can Create	195
Custom styles (Class)	196
CSS tag redefines	197
Advanced: IDs and CSS selectors	197
Adding a Style to a New or Existing Style Sheet.....	199
Attaching a Style Sheet to Your Document	202
Applying a Custom Class Style	204
Editing a CSS Style	204
Editing in All mode.....	205
Editing in Current mode	205
Adding properties to a CSS style.....	206
Deleting a CSS Style.....	206
Exploring the CSS Rule Definition Dialog Box	207
Type properties	207
Background properties.....	209
Block properties	211
Box properties	213
Border properties.....	214
List properties	215
Positioning properties	216
Extensions properties.....	218
Renaming CSS Styles	219
Exporting Internal Styles to an External Style Sheet	220
Using Design Time Style Sheets	221

Chapter 2: Building Sites with Templates223

Creating a Template.....	224
Understanding template markup	225
Converting an HTML page into a template	226
Creating a new template from scratch.....	229
Working with Editable Regions.....	230
Creating editable regions	231
Removing editable regions.....	233
Renaming editable regions	234
Exporting a site without any template markup	236
Creating Optional and Optional Editable Regions	237
Creating optional regions	237
Creating optional editable regions	238
Modifying optional regions	239
Creating Repeating Regions	240
Creating repeating regions	241
Creating repeating tables	241

Creating Editable Tag Attributes	244
Changing editable tag attributes in template-based files	245
Resetting an editable tag attribute to uneditable	246
Building Nested Templates	246
Creating nested templates	247
Modifying nested templates	247
Creating a New Document from a Template	248
Editing Templates and Updating Pages	249
Modifying a template and updating all the pages that use it	250
Selectively updating pages with the most recent version of the template	251
Applying Templates to Pages	252
Detaching Templates from Pages	253
Managing Templates	254
Renaming a template	254
Deleting a template file	256
Chapter 3: Using Library Items and Server-Side Includes	257
Introducing Library Items	258
Creating Library Items	258
Creating a selection-based library item	259
Creating an empty library item	260
Inserting a Library Item in Your Document	261
Editing and Managing Library Items	263
Editing library items	263
Updating documents and sites that use library items	264
Renaming library items	265
Deleting library items	266
Detaching library items	266
Duplicating library items	267
Re-creating library items	267
Understanding Server-Side Includes	268
Creating and Inserting Server-Side Includes	269
Creating a server-side include	270
Inserting a server-side include	271
Editing Server-Side Includes	273
Chapter 4: Creating Code Snippets and History Panel Commands	275
Understanding What Snippets Do	276
Using Dreamweaver's Snippets	276
Creating Code Snippets	277
Creating a text snippet	278
Creating a JavaScript snippet	280
Creating a snippet with the wrap option	282
Creating a snippet with graphics	284

Working with Snippets	286
Sharing snippets	286
Editing snippets	287
Deleting snippets	287
Managing snippets	287
Creating History Panel Commands	288
Working with the History Panel	288
Recording commands	289
Playing commands	290
Renaming and deleting commands	292

Chapter 5: Integrating Dreamweaver with Fireworks293

Preparing to Work with Dreamweaver and Fireworks	294
Setting Fireworks launch-and-edit preferences	294
Optimizing Dreamweaver for use with Fireworks	296
Using Fireworks Images in Dreamweaver	298
Inserting a Fireworks image in a Dreamweaver document	298
Replacing an image placeholder with a Fireworks graphic	298
Editing Images in Fireworks Tables	302
Optimizing Your Images in Fireworks	303
Editing Fireworks Pop-Up Menus	305
Roundtrip pop-up menu editing (Fireworks 8 and later)	305
Pop-up menu editing (Fireworks MX 2004 and earlier)	306
Using Fireworks HTML in Dreamweaver	306
Inserting Fireworks HTML in a Dreamweaver document	307
Pasting Fireworks HTML in a Dreamweaver document	308
Updating Fireworks HTML in a Dreamweaver Document	309

Book IV: Energizing Your Site311

Chapter 1: Working with Layers313

Understanding Layers	314
Creating Layers	315
Drawing a layer	316
Adding content to layers	317
Creating nested layers	317
Setting layer preferences	318
Managing Layers with the Layers Panel	320
Preventing layer overlap	321
Naming layers	322
Changing the z-index (stacking order)	322
Editing layer visibility	322
Selecting and Adjusting Layers	323
Selecting layers	324
Resizing and moving layers	324

Setting Layer Properties.....	325
Controlling Layer Style and Positioning with CSS	328
Controlling Layers with Behaviors	331
Converting Layers to Tables and Tables to Layers.....	331
Converting layers to a table.....	332
Converting tables to layers.....	333

Chapter 2: Jazzing Up Pages with JavaScript Behaviors 335

Understanding JavaScript Behaviors	336
Adding JavaScript to Your Page	337
Using Dreamweaver's Default Behaviors	339
Using the Behaviors panel	340
Attaching a behavior.....	342
Changing and deleting behaviors.....	343
Updating old behaviors	344
Call JavaScript	345
Change Property	346
Check Browser.....	347
Check Plug-In	350
Control Shockwave or Flash	351
Drag Layer.....	353
Go to URL	356
Jump Menu/Jump Menu Go	357
Creating a jump menu.....	358
Editing the Jump Menu behavior	359
Adding and removing a Go button	360
Open Browser Window.....	361
Play Sound	364
Popup Message.....	365
Preload Images	367
Set Nav Bar Image	368
Set Text of Frame.....	369
Set Text of Layer.....	371
Set Text of Status Bar.....	372
Set Text of Text Field.....	373
Show-Hide Layers.....	375
Show Pop-Up Menu.....	377
Swap Image	381
Swap Image Restore.....	383
Validate Form.....	384
Using Third-Party Behaviors	384
Visiting the Macromedia Exchange Web site.....	384
Using the Extension Manager	385

Chapter 3: Designing Pages with Frames387

Understanding Frames	388
Creating Frames and Framesets	390
Using predefined framesets to create a new file	392
Displaying a file in a predefined frameset	393
Creating custom framesets	394
Adding, Removing, and Resizing Frames	395
Adding frames	395
Removing frames	395
Resizing a frame	396
Nested Framesets	396
Opening Pages in a Frame	397
Saving Frames and Framesets	399
Saving all the files in the frameset	399
Saving only the frameset file	400
Saving an individual file in a frame	401
Titling a Frameset	401
Setting the Background Color of a File in a Frame	402
Setting Frame Properties with the Properties Inspector	402
Setting frameset properties	403
Setting frame properties	405
Frame Accessibility Settings	406
Setting accessibility preferences	406
Adding or editing accessibility settings to a frame with the Tag Editor	407
Targeting Frames with Links	407
Adding Noframes Content	409
Creating Floating Frames	411

Chapter 4: Introducing Timelines417

Using the Timelines Panel	417
Animating Layers in a Timeline	419
Creating a simple timeline animation	420
Creating a timeline with a complex path	423
Adding Behaviors to a Timeline Animation	424
Editing the Animated Layer's Properties or Image Source	425
Changing the image source	425
Altering the layer size	426
Changing the layer stacking order (z-index)	427
Adjusting a Timeline	428
Copying and Pasting a Timeline Animation	429
Working with Multiple Timelines	430

Chapter 5: Making Your Pages XHTML Compliant433

Understanding the Benefits of Using XHTML with Dreamweaver	433
Getting the Basics of XHTML Syntax	434
Discovering the strict rules you can't live without	434
Taking advantage of strict and transitional rules	435

Handling Dreamweaver's Automatic XHTML	
Code Compliance Tools	436
Making Sure Your Documents Follow XHTML Syntax	439
Creating a new XHTML document with Dreamweaver	439
Telling Dreamweaver to create XHTML-compliant	
files all the time	440
Transforming HTML document code into XHTML	441
Converting existing HTML files to XHTML	441
Making sure your HTML file can be converted to XHTML	441
Validating Your XHTML	442

***Book V: Publishing Your Site*443**

Chapter 1: Using Reports to Test Your Site before Publishing445

Testing Your Site	445
Following general testing guidelines	446
Previewing your pages in a browser	447
Setting the primary and secondary browsers	447
Previewing pages in multiple browsers	449
Setting download times and size	449
Examining the Results Panel	452
Searching Your Code for Tags and Attributes	452
Validating Your Code	453
Running the Validation panel	453
Setting Validator preferences	455
Testing Your Pages with Target Browser Check	456
Setting the target browsers for the Target Browser Check	456
Using the Target Browser Check panel	457
Viewing and fixing errors	459
Checking and Fixing Links	460
Handling Workflow and HTML Reports	463
Launching reports	463
Saving reports as XML files	465
Viewing File Transfer Activity with the FTP Log	466
Debugging a ColdFusion Application (Windows)	466

Chapter 2: Keeping Your Code Clean469

Eliminating Formatting Issues Before They Occur	470
Setting Copy and Paste preferences	470
Using the Paste Special command	472
Cleaning Up Word HTML	473
Checking Your Spelling, Grammar, and Readability	475
Getting Your HTML and XHTML Code Consistent	476
Reviewing Source Formatting and Making Changes	478
Setting code formatting preferences	478
Introducing your Code Category preferences	479

Applying Source Formatting	482
Applying source formatting to a complete file	483
Applying source formatting to a selection of a file	483
Changing Links Sitewide.....	483

Chapter 3: Preparing to Publish Your Files485

Creating a Remote Connection	485
Setting up a remote folder.....	486
Configuring a remote access type	487
Cloaking Your Files and Folders	496
Enabling and disabling cloaking options	497
Cloaking individual folders	499
Uncloaking previously cloaked file types.....	499

Chapter 4: Publishing Your Web Pages501

Understanding File Transfer Basics	501
Transferring dependent files.....	502
Working during file transfers	502
Putting Files on and Getting Files from the Remote Server	503
Examining the Files panel transfer options.....	504
Putting files on a remote server	506
Getting files from a remote server	507
Viewing the FTP and background file activity logs	508
Keeping Your Local and Remote Site Files Up to Date	509
Viewing the newest files without synchronization	509
Synchronizing your files	511

Book VI: Working Collaboratively513

Chapter 1: Working Efficiently with a Team515

Attaching Design Notes to Your Files	515
Enabling and disabling Design Notes.....	516
Removing Design Notes	517
Adding Design Notes to a file.....	518
Viewing and editing Design Notes	520
Checking Files In and Out	520
Defining File View Columns.....	523
Customizing File View Columns	523
Sorting columns.....	525
Using Site Map Layout	525
Setting a home page and viewing the site map	525
Linking and adding a page to a site.....	526
Linking files in the site map	527
Editing page titles and filenames in site map layout	528

Marking and unmarking files in site map layout	529
Hiding and showing files in site map layout	530
Customizing the site map layout	530
Saving the site map as a graphic file	531
Chapter 2: Setting Up and Connecting to a Contribute Site	533
Understanding Contribute Best Practices	534
Making a Dreamweaver Site Connection Compatible with Contribute	535
Using Dreamweaver to Administer a Contribute Site	537
Making the Most of Templates	540
Leaving a Trail of Bread Crumbs for Contribute Users	542
Connecting to a Contribute Site	542
Transferring files to and from a Contribute site from within Dreamweaver	543
Setting Contribute file and folder permissions	544
Understanding Contribute Special Files	544
Troubleshooting a Contribute Site in Dreamweaver	545
Fixing connection problems	545
Checking the _mm folder	546
Chapter 3: Managing a Contribute Site	547
Managing Contribute Files Using Dreamweaver	548
Rolling back your files	549
Making changes to Contribute files	551
Enabling Contribute users to use templates	552
Unlocking a checked out file	553
Using Dreamweaver to Edit a Contribute Site	553
Updating templates in a Contribute site	553
Editing style sheets in a Contribute site	554
 Book VII: Building Web Applications	 555
Chapter 1: Building Web Applications	557
Introducing Databases	557
Choosing a Database	559
Choosing a Web Application Platform	559
Microsoft IIS	561
Apache	563
Mac OS X	563
Hosted ISP sites	565
Adding an Application Server	565
PHP	566
ASP	567

ASP.NET	567
JSP	568
ColdFusion	568
Considering Web/Application Server Combinations	569
Setting Up the Testing Server in Dreamweaver	570
Chapter 2: Configuring Database Connections for PHP	573
Gathering What You Need to Connect to a MySQL Database	573
Adding a PHP Database Connection	577
Creating a new dynamic PHP page	577
Creating the database connection for PHP	578
Editing a PHP Database Connection	580
Deleting a PHP Database Connection	581
Chapter 3: Configuring ASP Database Connections	583
Gathering Database Connection Information	583
Adding an ASP Database Connection	583
Creating a new dynamic ASP page	584
Connecting with a Data Source Name (DSN)	585
Connecting with a custom connection string	586
Connecting to a Remote Database without a DSN	588
Understanding physical paths and virtual paths	588
Finding the database's physical path when you know the virtual path	589
Connecting to a remote database with a virtual path	590
Editing an ASP Database Connection	590
Deleting an ASP Database Connection	591
Chapter 4: Configuring ASP.NET Database Connections	593
Collecting Database Connection Information	593
Adding an ASP.NET Database Connection	593
Creating a new dynamic ASP.NET page	594
Building an OLE DB connection	595
Building a SQL Server connection	599
Editing an ASP.NET Database Connection	600
Deleting an ASP.NET Database Connection	601
Chapter 5: Configuring JSP Database Connections	603
Gathering Database Connection Information	603
Adding a JSP Database Connection	604
Java Runtime Environment Installation	605
Installing the JDBC Driver	605
Creating a new dynamic JSP page	606
Connecting to a database	607
Browsing a database	609

Editing a JSP Database Connection	609
Deleting a JSP Database Connection	610

Chapter 6: Configuring ColdFusion Database Connections611

Pulling Together Database Connection Information	611
Understanding How ColdFusion Connects to Databases	612
Adding a ColdFusion Database Connection.....	612
Creating a new ColdFusion document	612
Specifying RDS login information	613
Configuring a database connection with the ColdFusion Administrator	614
Configuring a database connection in Dreamweaver 8 (ColdFusion MX 7)	617
Editing a ColdFusion Database Connection.....	618
Using Dreamweaver 8 (ColdFusion MX 7).....	618
Using the ColdFusion Administrator (All versions of ColdFusion).....	619
Deleting a ColdFusion Database Connection.....	620

Chapter 7: Dealing with Database Issues621

Troubleshooting Basic Database Access	622
Verifying contact with the database server	622
Validating your database username and password	623
Problematic Permissions: IIS and File-Based Databases	625
Troubleshooting Microsoft Error Messages	627
80004005: Data Source Name Not Found	628
80040e07: Data type mismatch in criteria expression	628
80040e10: Too few parameters	628
80040e14: Syntax error in INSERT INTO statement.....	628
80040e21: ODBC error on Insert or Update	629
800a0bcd: Either BOF or EOF is true.....	629
Troubleshooting JSP Database Connections.....	629
Identifying Problems within the Database	629
General Troubleshooting	630

Book VIII: Making Pages Dynamic631

Chapter 1: Preparing Dynamic Content Sources633

Exploring Your Database in the Databases Panel	634
Defining Form Parameters	635
Defining URL Parameters	637
Defining Session Variables	639
Using a Database as Your Data Source	641
Understanding recordsets.....	641
Defining a recordset	642

Chapter 2: Using Dynamic Content in Your Web Pages645

Displaying and Formatting Dynamic Content.....	645
Adding dynamic text	646
Formatting your dynamic content	646
Testing your dynamic text.....	648
Working with Database Recordsets	649
Repeating regions on your page	649
Repeating regions in HTML tables	651
Adding a recordset navigation bar.....	654
Showing and hiding regions on your page	654
Adding Dynamic Form Elements to Your Page.....	656

Chapter 3: Previewing and Testing Your Dynamic Pages657

Viewing Live Data in Your Dynamic Web Pages	657
Understanding how Live Data mode works	657
Uploading dependent files to the testing server	659
Providing parameters for user input	661
Troubleshooting problems in Live Data mode	662
Previewing a Dynamic Web Page in Your Browser	664

Chapter 4: Building Dynamic Forms667

Inserting Dynamic Form Elements	667
Text fields	668
Check boxes	669
Radio buttons	671
Lists and menus.....	672

Chapter 5: Advanced Dynamic Data Presentation675

Using ColdFusion Components	675
Building Web pages that use ColdFusion components	676
Creating ColdFusion components	678
Adding Web Services to Your Pages	681
Creating Custom Server Behaviors.....	684

Book IX: Developing Applications Rapidly.....689

Chapter 1: Building Master and Detail Pages691

Building Master and Detail Pages in One Operation (PHP, ASP, JSP, ColdFusion)	692
