Adding a form .....	96
Specifying form properties .....	97
Labeling form objects .....	98
Using text fields .....	99
Setting up buttons .....	100
Adding other form elements .....	101
Structuring Pages with Frames .....	102
Adding frames .....	102
Modifying frames .....	103
Deleting frames .....	105
Saving frames .....	105
Saving framesets .....	106
Setting no-frames content .....	106
Targeting content .....	107

<b>Chapter 5: Laying Out Pages with Layers</b> .....	<b>109</b>
Adding a Layer .....	109
Selecting a Layer .....	110
Deleting a Layer .....	111
Placing Objects in a Layer .....	111
Changing Layer Properties .....	111
Including a background image or color in a layer .....	112
Naming a layer .....	112
Aligning layers .....	113
Changing the visibility of a layer .....	114
Layering layers: Setting the z-index .....	115
Moving a layer .....	117
Resizing a layer .....	118
Nesting Layers .....	118
Enabling nesting .....	119
Creating a new nested layer .....	119
Nesting an existing layer .....	120
Collapsing or expanding your view in the Layers tab .....	120
<b>Chapter 6: Using ColdFusion MX 6.1 Developer Edition in Dreamweaver MX 2004</b> .....	<b>121</b>
Understanding the Integration of ColdFusion and Dreamweaver .....	121
Using Features on the Insert Bar .....	124
Editing a Tag .....	128
Getting Data from a Database .....	129
Using the Bindings Tab .....	131
Introducing Server Behaviors and Components .....	133
Understanding server behaviors .....	133
Considering components .....	134
<b>Chapter 7: Advanced Web Page Design Techniques</b> .....	<b>135</b>
Creating Clickable Image Maps with Hotspots .....	135
Creating a hotspot .....	135
Modifying a hotspot .....	137
Adding Flash Text Rollovers .....	137
Adding Flash text .....	138
Changing Flash text .....	139
Adding Flash Button Rollovers .....	139
Adding a Flash button .....	140

Making a layer visible or invisible on the canvas .....	265
Locking and unlocking a layer .....	265
Renaming a layer .....	265
Moving a layer in front of or behind other layers .....	266
Merging layers .....	268
Using Layers for Masking .....	268
Creating a bitmap mask .....	269
Creating a vector mask .....	272
Using the Web Layer .....	273
Using the Slice tool .....	274
Using the Polygon Slice tool .....	275
Working with Objects .....	276
Renaming an object in the Layers panel .....	276
Moving an object between layers .....	276
Setting an object's opacity/transparency .....	276
Blending .....	277
Managing Frames .....	280
Adding frames .....	281
Deleting and editing frames .....	282
Renaming frames .....	282
Using Frames to Create Rollovers and Animated GIFs .....	282
Creating a rollover .....	283
Creating an animated GIF .....	284

**Chapter 6: Slicing Up Content for the Web .....289**

Exploring the Advantages of Using Slices .....	289
Creating and Editing Slices .....	291
Naming a slice .....	291
Moving a slice .....	292
Resizing a slice .....	293
Duplicating a slice .....	295
Optimizing Your Images for the Web .....	295
Working with the options in the Optimize panel .....	296
Making a JPEG .....	298
Making a GIF .....	301

Previewing Slices .....	304
The Preview pane .....	305
The 2-Up view .....	305
The 4-Up view .....	306
Relating Hotspots and Slices .....	307
Exporting Images .....	308
Exporting a single image .....	308
Exporting multiple image slices .....	309
Exporting an animated GIF .....	310

**Chapter 7: Advanced Fireworks MX 2004 Tools ..... 311**

Using Advanced Export Options .....	311
Readying your PNG for HTML export .....	313
Exporting HTML with your images .....	314
Setting the export HTML file options .....	315
Setting Up Image Maps and Button Rollovers .....	317
Creating image maps with hotspots .....	317
Creating advanced button rollovers .....	319
Bringing Interactivity to Your Pages with Behaviors .....	322
The Swap Images behavior .....	322
Generating pop-up menus .....	324

**Chapter 8: Integrating Fireworks MX 2004 with Other  
Macromedia Products ..... 329**

Integrating Fireworks with Macromedia Flash .....	331
Exporting files from Fireworks to Macromedia Flash .....	331
Importing files into Macromedia Flash from Fireworks .....	333
Integrating Fireworks with Dreamweaver .....	334
Setting preferences .....	334
Editing PNGs .....	335
Working with tables .....	336
Integrating Fireworks with FreeHand .....	338
Importing FreeHand files into Fireworks .....	339
Editing Fireworks objects in FreeHand .....	341
Integrating Fireworks with Director .....	342

***Book IV: FreeHand MX ..... 345***

**Chapter 1: Introduction to FreeHand MX ..... 347**

Introducing FreeHand MX .....	347
Using Illustration Tools for the Web .....	348
Understanding the Role of Vector Graphics .....	348

Investigating the FreeHand MX Interface .....	349
Exploring the document window .....	350
Using the drawing tools .....	351
Working with toolbars .....	352
Perusing the panels .....	353
Modifying groups .....	355

**Chapter 2: Understanding FreeHand MX Basics    ..... 357**

Creating FreeHand Documents .....	357
Creating a new document .....	358
Modifying documents with the Properties panel .....	359
Editing a Master Page .....	363
Changing the Document Tab Thumbnail Display .....	363
Using the Page Tool .....	364

Working with Text and Paths .....	401
Converting text to a path .....	401
Aligning text to a path .....	402
Aligning text to both sides of an ellipse .....	403
Modifying the alignment of text along a path .....	404
<b>Chapter 4: Creating Illustrations with FreeHand MX .....</b>	<b>407</b>
Using Predefined Shapes .....	407
Creating rectangles and squares .....	408
Creating polygons .....	409
Creating ellipses .....	410
Creating spirals .....	411
Creating Freeform Shapes .....	412
Using the Pencil tool .....	413
Using the Variable Stroke Pen tool .....	414
Using the Calligraphic Pen tool .....	415
Selecting Objects .....	416
Using the Pointer tool .....	416
Using the Subselection tool .....	417
Using the Lasso tool .....	417
Editing Objects with the Object Tab .....	418
Grouping and Ungrouping Objects .....	419
Arranging Objects .....	420
Aligning Objects with the Align Panel .....	421
Slicing Objects with the Knife Tool .....	423
<b>Chapter 5: Transforming Text, Shapes, and Images .....</b>	<b>425</b>
Working with Bitmap Images .....	425
Modifying Objects .....	426
Scaling graphics .....	427
Skewing and distorting objects .....	429

Rotating objects .....	431
Flipping objects .....	433
Using the Move command .....	435
Giving an object some perspective .....	436
Extruding an object .....	438
Scaling, skewing, and rotating with the Pointer tool .....	438
Using the Trace Tool .....	440
Creating New Shapes by Combining Shapes .....	442
Using the Xtra Tools to Change a Shape .....	443
Using the Arc tool .....	444
Using the 3D Rotation tool .....	444
Using the Smudge tool .....	445
Using the Shadow tool .....	445
Using Xtra Operations to Modify Shapes .....	446

**Chapter 6: Exploring the Color Management Tools ..... 449**

Using the Mixer Tab .....	450
Mixing a CMYK color .....	450
Mixing an RGB color .....	451
Mixing an HLS color .....	452
Mixing a color from the System Color Picker .....	453
Working with the Mixer Tab .....	454
Using the Mixer tab to apply color to an object .....	454
Using the Mixer tab to change the current fill or stroke color ....	455
