

Preface	4
Audience	4
About This Book	4
C# Online	4
Conventions Used in This Book	5
How to Contact Us	7
Acknowledgments	7
Chapter 1. Introduction.....	9
1.1 C# Language	9
1.2 Common Language Runtime	10
1.3 Framework Class Library	11
1.4 A First C# Program.....	11
Chapter 2. C# Language Reference	13
2.1 Identifiers.....	13
2.2 Types	13
2.3 Variables	23
2.4 Expressions and Operators	24
2.5 Statements.....	26
2.6 Organizing Types.....	33
2.7 Inheritance	35
2.8 Access Modifiers.....	39
2.9 Classes and Structs	41
2.10 Interfaces	56
2.11 Arrays	59
2.12 Enums	61
2.13 Delegates.....	62
2.14 Events	65
2.15 try Statements and Exceptions	67
2.16 Attributes	71
2.17 Unsafe Code and Pointers	73
2.18 Preprocessor Directives	75
2.19 XML Documentation	76
Chapter 3. Programming the .NET Framework	82
3.1 Common Types.....	82
3.2 Math	87
3.3 Strings	88
3.4 Collections	91
3.5 Regular Expressions	97
3.6 Input/Output.....	99
3.7 Networking	102
3.8 Threading	106
3.9 Assemblies	109
3.10 Reflection.....	112
3.11 Custom Attributes	118

3.12 Automatic Memory Management.....	124
3.13 Interop with Native DLLs	127
3.14 Interop with COM.....	133
Chapter 4. Framework Class Library Overview.....	137
4.1 Core Types	137
4.2 Text	137
4.3 Collections	138
4.4 Streams and I/O	138
4.5 Networking	138
4.6 Threading	138
4.7 Security	139
4.8 Reflection and Metadata	139
4.9 Assemblies	139
4.10 Serialization.....	140
4.11 Remoting	140
4.12 Web Services	140
4.13 Data Access	141
4.14 XML	141
4.15 Graphics.....	141
4.16 Rich Client Applications.....	142
4.17 Web-Based Applications	142
4.18 Globalization.....	142
4.19 Configuration.....	143
4.20 Advanced Component Services.....	143
4.21 Diagnostics and Debugging	143
4.22 Interoperating with Unmanaged Code	144
4.23 Compiler and Tool Support.....	144
4.24 Runtime Facilities	144
4.25 Native OS Facilities.....	144
4.26 Undocumented Types.....	145
Chapter 5. Essential .NET Tools	147
Appendix A. C# Keywords	149
Appendix B. Regular Expressions	153
Appendix C. Format Specifiers	156
C.1 Picture Format Specifiers	157
C.2 DateTime Format Specifiers	159
Appendix D. Data Marshaling	161
Appendix E. Working with Assemblies	162
E.1 Building Shareable Assemblies	162
E.2 Managing the Global Assembly Cache	163
E.3 Using nmake	163
Appendix F. Namespaces and Assemblies	165
Colophon	169
