

Table of Contents

Chapter 1: Introduction	1
Tree-based APIs	1
Simple API for XML (SAX).....	2
About This Book	3
How to Use This Book	3
 Chapter 2: A Complete SAX Application	 4
Overview	4
What Is SAX?.....	4
Where Do I Get It?.....	4
Configuring Your Environment.....	5
Basic SAX Application Flow	5
The XShell Sample Application.....	6
Using the XMLReader Interface.....	7
Implementing the ContentHandler Interface.....	8
Parsing and Processing	8
Accessing Attribute Values Using the Attributes Interface	12
Wrapping Up.....	12
 Chapter 3: Handling Errors.....	 13
Overview	13
Running the Application.....	13
Catching SAXExceptions.....	14
The ErrorHandler Interface	14
SAX Property and Feature Exceptions.....	16
Handling Multiple Errors.....	17
Moving On.....	17
 Chapter 4: Working with InputSources	 18
Highlights	18
InputSource Overview	18
Using the InputSource Class	19
Public and System IDs.....	19
Character Encoding.....	20
Custom Entity Resolvers	20
The Locator Interface.....	22
Moving On.....	23
 Chapter 5: Capturing DTD Information.....	 24
Overview	24
The DTDHandler Interface.....	24
Unparsed Entities	24
A Typical Application	25
Tracking NOTATION and ENTITY Declarations	26
Processing Entity References	26
Moving On.....	27
 Chapter 6: Namespace Support.....	 28
Overview	28
Namespace Terminology	28
Checking Parser Capabilities.....	30
Recognizing Namespaces at Parse Time	30
Tracking Namespace Prefixes	31
Moving On.....	32

Chapter 7: Advanced SAX Concepts	33
Overview	33
The XMLFilter Interface	33
Extending XMLFilter	34
Filter Chaining.....	35
Moving On.....	35
 Chapter 8: Migrating SAX 1.0 Applications.....	 36
Overview	36
Differences between SAX 1.0 and 2.0.....	36
Migration Strategies	37
The XMLReaderAdapter Class.....	38
Replacing Deprecated Code	39
Using Old Parsers.....	40
Moving On.....	40
 Chapter 9: Parser Support	 41
Overview	41
Using the DefaultHandler Class.....	42
Working with the InputSource Class	43
SAX Features and Properties	44
Namespace Tracking.....	45
The LocatorImpl Class	46
Error Handling.....	46
Where to Go from Here	46
 Chapter 10: SAX 2.0 API Reference	 47
Overview	47
Attributes Interface	48
AttributesImpl Class	61
ContentHandler Interface	86
DefaultHandler Class.....	99
DTDHandler Interface	118
EntityResolver Interface	121
ErrorHandler Interface	123
InputSource Class	127
Locator Interface	141
LocatorImpl Class.....	146
NamespaceSupport Class	156
ParserAdapter Class	168
SAXException Exception	193
SAXNotRecognizedException Exception	198
SAXNotSupportedException Exception	199
SAXParseException Exception.....	200
XMLFilter Interface.....	208
XMLFilterImpl Class.....	211
XMLReader Interface.....	246
XMLReaderAdapter Class	266
XMLReaderFactory Class	286
 Chapter 11: Deprecated SAX 1.0 API.....	 289
AttributeList Interface.....	290
AttributeListImpl Class	297
DocumentHandler Interface	309
HandlerBase Class	318
Parser Interface.....	333
ParserFactory Class.....	341
