**Art and Business of Speech Recognition: Creating the Noble Voice,  
The**

By [Blade Kotelly](#)

Publisher	:	Addison Wesley
Pub Date	:	January 22, 2003
ISBN	:	0-321- 15492-4
Pages	:	208

[Copyright](#)

[Praise for the Art and Business of Speech Recognition](#)

[Preface](#)

[Philosophy](#)

[Acknowledgments](#)

[Part I. The Background](#)

[Chapter One. On Telephones, Touchtones, and Business Needs](#)

[Speech Recognition Versus Touchtone Functionality](#)

[Problems with Touchtone, and a Speech Recognition Remedy](#)

[What Kinds of Companies are Using Speech Recognition?](#)

[Why are Companies Using It?](#)

[Speech-Recognition Applications: A Typical Example](#)

[Where We've Been—Where We're Going](#)

[Chapter Two. Technology Primer: About Speech Recognizers](#)

[What the Recognizer Hears \(and the Need for Confirmation\)](#)

[When the Recognizer Listens](#)

[Why Designing a Speech-Recognition Application Is Challenging](#)

[Where We've Been—Where We're Going](#)

[Chapter Three. The Psychology of How People Interact with Speech-Recognition  
Systems](#)

[Social-Psychological Research](#)

[Ask "Dr." Blade](#)

[Where We've Been—Where We're Going](#)

## [Part II. The Process of Designing Speech-Recognition Systems](#)

### [Chapter Four. Research](#)

[Clients' Objectives](#)

[Callers' Objectives and Needs](#)

[Aspects of Research](#)

[Assembling a Requirements Specification](#)

[Anticipating Change](#)

[Where We've Been—Where We're Going](#)

### [Chapter Five. Developing the Design](#)

[Conceptualizing and Brainstorming](#)

[Congruence of Style](#)

[Defining the Call Flow](#)

[Vision Clips/Sample Calls](#)

[The Design Specification—Conveying the Details of the Design](#)

[Constructing a Design Specification](#)

[Following Through on the Initial Design Phase](#)

[Where We've Been—Where We're Going](#)

### [Chapter Six. Writing Effective Prompts](#)

[The Language of Asking Questions](#)

[The Art of Writing Perfect Prompts](#)

[Writing Prompts for Elegance, Speed, and Value](#)

[Getting Callers to Focus on the Essentials](#)

[Some Subtleties of Prompt Writing](#)

[Top Five Good Tenets for Writing Prompts](#)

[Top Five Mistakes When Writing Prompts](#)

[Where We've Been—Where We're Going](#)

### [Chapter Seven. Production And Branding](#)

[Notes About Implementation and Programming](#)

[Production](#)

[Prompt Creation—Text-to-Speech and Recorded Voices](#)

[Casting](#)

[Directing Voice Talents](#)

[The Art of Recording Prompts](#)

[Other Thoughts on Directing](#)

[Concatenative Prompt Recording](#)

[Some Metrics and Technical Notes](#)

[Audio Icons](#)

[Branding](#)

[Where We've Been—Where We're Going](#)

### [Chapter Eight. Usability Testing](#)

[The Value of Usability Testing](#)  
[How We Test an Application](#)  
[Objectives of Usability Testing](#)  
[Preparing for the Test](#)  
[The Test Subjects](#)  
[How to Get Test Subjects](#)  
[The Test Environment](#)  
[Types of Tests](#)  
[The Test Is Over—Now What?](#)  
[Interpreting Test Results](#)  
[Where We've Been—Where We're Going](#)

#### [Chapter Nine. Deployment](#)

[The Importance of Multi-Phase Deployment](#)  
[The Three Phases of Deployment](#)  
[Pilot Deployment](#)  
[Partial Deployment](#)  
[Full Deployment](#)  
[Where We've Been—Where We're Going](#)

### [Part III. Applied Knowledge](#)

#### [Chapter Ten. Case Studies](#)

[United Airlines: Shortcuts for Frequent Fliers](#)  
[United Airlines: Providing Extra Help For Those Who Need It](#)  
[Continental Airlines: A Different Approach to Flight Information](#)  
[A Top-Five Investment Management Company: Handling Complex Two-Choice Questions](#)  
[An Online Brokerage Firm: Managing More Complex Tasks](#)  
[An Online Brokerage Firm: Preferences and Other Rarely Used Functions](#)  
[A Regional Telephone Company: Dealing With Legal Notices and Disclaimers](#)  
[Wildfire: List Navigation](#)  
[Wildfire: Small Header, Large Body Lists](#)  
[A Top-Five U.S. Bank: Large Header, Small Body Lists](#)  
[The "Race Condition"](#)  
[FedEx: Scaffolding Prompts](#)  
[Amtrak: Implicit Confirmation and the "ellipses/and" Question Form](#)  
[AirTran: Reducing the Information Burden](#)  
[Guessing Right](#)  
[Semantics: When "Problem" Was a Problem](#)  
[Where We've Been—Where We Must Go](#)

[Postscript](#)

[Suggested Reading List](#)

[Glossary](#)
