List of Figures and Tables .....	ix
Preface .....	xi
Acknowledgments .....	xiii
Introduction .....	xv

## SECTION I: The Software Process Model

<b>1 Origins of the Software Process Model .....</b>	<b>3</b>
What I Will Cover.....	8
Process Terminology.....	12
<b>2 Defining the Real-World Process Connection .....</b>	<b>19</b>
<b>3 The Software Process Model Pyramid .....</b>	<b>27</b>
Side 1 of the Software Process Model Pyramid.....	28
Side 2 of the Software Process Model Pyramid.....	29
Side 3 of the Software Process Model Pyramid.....	30
Side 4 of the Software Process Model Pyramid.....	30
<b>4 The Software Process Model Overview .....</b>	<b>33</b>
The Software Process Model Concept .....	33
The Key Process Element: The Activity .....	43
<b>5 Side 1 — Level 1 Authority Level .....</b>	<b>49</b>
Authority Level .....	49
<b>6 Side 1 — Level 2 Repeatable Level .....</b>	<b>53</b>
End-to-End Life-Cycle Diagram (Repeatable Level — Side 1) .....	53
Process Activity Diagrams (PADs) (Repeatable Level — Side 1) .....	58

Event-Driven Procedures (EDP) Lists (Repeatable Level — Side 1).....	59
End-to-End Life Cycle of Activities.....	59
Activities.....	73
Mandatory Activity Topics.....	79
Predecessor/Successor Activities.....	79
Activity Name .....	79
Activity Description.....	79
Activity Dependencies .....	79
Activity Inputs .....	80
Activity Steps .....	80
Activity Outputs.....	82
Activity Metrics .....	82
Activity Training .....	83
Possible Extension Activity Topics .....	83
Activity Group .....	83
Activity Roles .....	83
How Selectors Are Used by the Activity .....	84
Activity Estimations.....	84
Activities in General .....	84
<b>7 Side 1 — Level 3 Implementation Level .....</b>	<b>87</b>
How Selectors .....	87
Procedures .....	91
<b>8 Side 1 — Level 4 Support Level .....</b>	<b>95</b>
Work Products.....	95
Work Product Template.....	97
Work Product Inspection Checklist .....	98
Suggested Roles — Criteria .....	100
Entry Criteria.....	101
Inspection Criteria .....	101
Work Product Guidelines .....	102
Work Product Example(s) .....	103
Forms .....	103
Form Template .....	105
Form Inspection Checklist.....	105
Form Guideline .....	105
Form Example(s).....	105
Project Records.....	106
<b>9 Side 2 — Training .....</b>	<b>107</b>
Training Packages .....	107
General Training .....	108
Functional Area Training .....	109
Authority-Level Training .....	109
Repeatable-Level Training .....	109
Implementation-Level Training.....	110
Support-Level Training.....	110

---

<b>10</b>	<b>Side 3 — Pr ocess Traceability .....</b>	<b>113</b>
	Process Traceability for Compliance .....	113

## **SECTION II: IMPLEMENTING THE SOFTWARE PROCESS MODEL**

<b>11</b>	<b>Side 4 — Pr ocess Repository Implementation .....</b>	<b>119</b>
	Web-Based Version-Control Process Repository.....	119
	Separate Master Control from Web Presentation .....	119
	Integrated Master Control with Web Presentation .....	120
<b>12</b>	<b>Side 4 — Intranet W eb Implementation .....</b>	<b>125</b>
	Intranet Basics .....	125
	Major Functional Breakdown for Process — Don't Do This.....	131
	Multi-Life Cycles for Process.....	133
	Top-Level Root Web Page.....	133
	Identification Portion .....	134
	Schedulable Portion .....	135
	Nonschedulable Portion .....	136
	Segment Top-Level Web Page .....	136
	Identification Portion .....	138
	Schedulable Portion .....	138
	Nonschedulable Portion .....	139
	Phase Top-Level Web Page.....	139
	Identification Portion .....	141
	Schedulable Portion .....	141
	Nonschedulable Portion .....	142
	Activity Web Page.....	142
	How Selector Web Page.....	144
	Work Product Selector Web Page.....	145
	Form Selector Web Page .....	146
	Procedures .....	146

## **SECTION III: USING THE SOFTWARE PROCESS MODEL**

<b>13</b>	<b>Users of the Softwar e Pr ocess Model .....</b>	<b>151</b>
	Classes of Customers Using This Model.....	151
	General Customer .....	151
	Line/Project Management Customer .....	152
	Lead/Practitioner Customer .....	153
	Quality/Process-Group Customer .....	153
<b>14</b>	<b>Metrics Collection Using This Softwar e Pr ocess Model .....</b>	<b>155</b>
	Metrics Collection versus Presentation.....	155
	Metrics Data Collection .....	155
	Metrics Information Presentation.....	156

<b>15 Schedule Management Using This Software Process Model</b> .....	<b>159</b>
Schedule Planning versus Execution.....	159
Schedule Planning.....	160
Schedule Execution.....	162
<b>16 Project Estimation Using This Software Process Model</b> .....	<b>165</b>
General Project Estimation.....	165
Manual Estimation by Activity Lead.....	167
<b>17 Time-Card Charging Using This Software Process Model</b> .....	<b>171</b>
<b>18 Subcontract Management Using This Software Process Model</b> .....	<b>175</b>
Subcontractor Management Components.....	175
Supplier Selection .....	176
Supplier Agreement Management.....	177
<b>19 Integrated Teams Using This Software Process Model</b> .....	<b>179</b>
Integrated Teaming Concepts .....	179
<b>SECTION IV: DEPLOYING THE SOFTWARE PROCESS MODEL</b>	
<b>20 Deployment Foundation Issues</b> .....	<b>185</b>
Establish Key Roles/Charter for Deployment .....	185
Ensure an Inspection Procedure Is in Place .....	188
Get at Pain Issues .....	190
An Implementation Technique for Getting at Pain Issues .....	191
Develop a Top-Level Life-Cycle Framework .....	195
<b>21 Deployment Issues</b> .....	<b>197</b>
General Deployment Issues .....	197
Deployment Issues for This Model .....	199
Identify Candidate Projects .....	200
Train Candidate Personnel .....	200
Assist Candidate Personnel .....	201
Conduct Postmortem — Candidate Projects.....	201
Rollout to Organization .....	201
<b>22 Post-Deployment Issues</b> .....	<b>203</b>
Assist Organization Personnel.....	203
Collect Process Metrics .....	204
Inspection Procedure .....	204
Time-Card Association for Actual Charges .....	204
Conduct Postmortems — Organization.....	205
<b>Index</b> .....	<b>207</b>

---

# List of Figures and Table

---

## Figures

1.1	Process stakeholders .....	9
1.2	Process ingredient ordering.....	10
3.1	Process framework architecture pyramid .....	28
4.1	Process activity diagram (PAD) .....	40
4.2	Event-driven procedures (EDP) lists.....	41
4.3	Activity drill-down .....	45
6.1	End-to-end life-cycle diagram.....	54
6.2	Partial process activity diagram (PAD) .....	60
6.3	Up to and including the integration plan .....	66
6.4	Unit A schedule thread.....	67
6.5	Unit B schedule thread.....	68
6.6	Unit C schedule thread.....	69
6.7	Integration set 1 schedule thread .....	69
6.8	Unit D schedule thread.....	70
6.9	Unit E schedule thread .....	71
6.10	Integration set 2 schedule thread .....	72
6.11	Unit F schedule thread .....	72
6.12	Integration set 3 schedule thread .....	73
6.13	Activity analysis form .....	75

6.14	Tabular format .....	76
6.15	Graphical format.....	77
6.16	Activity format.....	78
7.1	How selector format.....	88
7.2	Connecting how-tos to a how selector .....	91
8.1	Work product selector format .....	96
8.2	Inspection checklist format.....	100
8.3	Form selector format.....	104
12.1	Top-level Web page .....	134
12.2	Segment top-level Web page.....	137
12.3	Phase top-level Web page .....	140
12.4	Activity Web page .....	144
12.5	How selector Web page .....	145
12.6	Work product selector Web page .....	146
12.7	Form selector Web page.....	147
12.8	Procedure header Web page .....	148
15.1	Estimation snippet .....	160

## Table

2.1	Activity Approach versus Work Product Approach.....	25
-----	---	----
