Introduction	xix
Part 1: Building the Foundation	1
Task 1: Changing the Workspace	2
Task 2: Using the Start Page	4
Task 3: Moving Panels into Different Groups	6
Task 4: Opening, Creating, Saving, and Closing a Document	8
Task 5: Setting Accessibility Preferences	10
Task 6: Setting Up External Editors	12
Task 7: Setting Up Testing Browsers	14
Task 8: Adding or Removing Keyboard Shortcuts	16
Task 9: Dreamweaver's Various Workspace Views	18
Task 10: Defining a Site Using the Site Wizard	20
Task 11: Defining a Site Using the Advanced Tab	22
Task 12: Adding Files and Folders in the Files Panel	24
Task 13: Setting the Page Properties	26
Task 14: Adding and Changing Colors	28
Task 15: Using the Insert Bar to Add Common Objects	30
Task 16: Adding Favorites to the Insert Bar	32
Task 17: Selecting Invisible Elements	34
Task 18: Modifying Meta Data Content	36
Task 19: Configuring Design Notes	38
Task 20: Assigning Design Notes	40
Task 21: Configuring File Check In and Check Out	42
Task 22: Using Check In and Check Out	44
Task 23: Setting the Home Page	46
Task 24: Configuring the Site Map Layout	48

Task 25: Sharing and Retrieving Site Definitions	50
Task 26: Testing the Page Using Different Monitor Resolutions	52
Task 27: Using the Reference Panel	54
Part 2: Using Text and Images	57
Task 28: Adding Text	58
Task 29: Formatting a Paragraph	60
Task 30: Changing the Font, Size, and Color of Text	62
Task 31: Understanding How Dreamweaver Adds Styles Using the Property Inspector and Page Properties	64
Task 32: Changing Text Alignment, Formatting Lists, and Indenting	66
Task 33: Changing and Renaming Styles	68
Task 34: Making a Definition List	70
Task 35: Changing Page Font and Margins	72
Task 36: Changing Background Colors and Images	74
Task 37: Importing Text from Microsoft Word	76
Task 38: Cleaning Up HTML	78
Task 39: Linking to a Dreamweaver Document	80
Task 40: Adding Links Using the Files Panel	82
Task 41: Linking to a Web Page Outside Your Site	84
Task 42: Changing Link Colors and Properties	86
Task 43: Adding an E-mail Link	88
Task 44: Adding Anchor Links	90
Task 45: Using the Assets Panel to Manage Assets	92
Task 46: Inserting Images	94
Task 47: Adding Alternative Text to Images	96
Task 48: Adding or Removing Image Borders	98
Task 49: Aligning Images	100
Task 50: Using Image Placeholders	102
Task 51: Replacing a Placeholder Image Using Fireworks	104
Task 52: Changing the Brightness and Contrast of an Image	106
Task 53: Cropping an Image	108
Task 54: Sharpening an Image	110
Task 55: Setting Fireworks as Your Image Editor	112
Task 56: Editing an Image in Fireworks	114
Task 57: Optimizing Graphics in Fireworks	116
Task 58: Inserting Fireworks Images and HTML	118
Task 59: Editing Fireworks HTML	120
Task 60: Making an Image Map	122

Part 3: Working with Tables and Site Management	125
Task 61: Inserting a Table	126
Task 62: Selecting Table Elements	128
Task 63: Adding and Removing Table Rows or Columns	130
Task 64: Merging and Splitting Table Elements	132
Task 65: Importing Tabular Data	134
Task 66: Sorting Table Data	136
Task 67: Formatting a Table	138
Task 68: Nesting Tables	140
Task 69: Manipulating Table Width and Height	142
Task 70: Aligning Tables and Cells	144
Task 71: Switching Table Modes	146
Task 72: Making a Stretchy Table	148
Task 73: Making a Fixed-Width Table	150
Task 74: Making a Hybrid Table	152
Task 75: Making a Table with Rounded Corners	154
Task 76: Cloaking	156
Task 77: Testing Links	158
Task 78: Validating the Site	160
Task 79: Checking Accessibility	162
Task 80: Checking for Browser Compatibility	164
Task 81: Testing Your Site Locally	166
Task 82: Uploading Files to the Server	168
Task 83: Testing Your Site Online	170
 Part 4: Mastering Frames	 173
Task 84: Making the Frame–No Frame Choice	174
Task 85: Using a Predefined Frameset	176
Task 86: Making a Custom Frameset	178
Task 87: Saving a Frameset	180
Task 88: Editing Frames	182
Task 89: Setting the Frameset Properties	184
Task 90: Setting Frame Properties	186
Task 91: Adding Content to Frames	188
Task 92: Linking in Frames	190

Task 93: Linking to Two Frames with One Link	192
Task 94: Coding a Frameset to Be Found by Search Engines	194
Task 95: Preventing Your Site from Being Framed	196
Task 96: Preventing an Interior Page from Being Accessed without the Frameset.	198
Part 5: Working with Forms	201
Task 97: Adding a Form	202
Task 98: Inserting Form Elements	204
Task 99: Adding a Form with Check Boxes	206
Task 100: Adding a Form with Radio Buttons	208
Task 101: Adding a Radio Button Group	210
Task 102: Adding a Drop-Down Form List	212
Task 103: Adding a Scrolling List	214
Task 104: Adding a Submit and Reset Button	216
Task 105: Using an Image for a Submit and Reset Button	218
Task 106: Validating a Form	220
Task 107: Making the Form Work Using a CGI Script	222
Part 6: Working with Layers	225
Task 108: Drawing or Inserting a Layer	226
Task 109: Using CSS Layers from Fireworks	228
Task 110: Setting Layer Properties	230
Task 111: Managing Layers	232
Task 112: Aligning Layers Using Rulers and Grids	234
Task 113: Nesting Layers	236
Task 114: Using a Tracing Image	238
Task 115: Layers and Netscape 4.X	240
Task 116: Using the Show or Hide Layers Behavior	242
Task 117: Changing a Layer's Content Dynamically	244
Task 118: Making a Layer Draggable	246
Part 7: Making Your Site Interactive Using Behaviors	249
Task 119: Adding Behaviors	250
Task 120: Making a Rollover Button	252
Task 121: Making Remote Rollovers or Swapping Multiple Images	254
Task 122: Editing a Behavior	256
Task 123: Choosing a Browser Model	258
Task 124: Changing Properties of a Specific Tag Dynamically	260
Task 125: Checking for the User's Browser Version and Type	262

Task 126: Checking for Installed Plug-ins	264
Task 127: Opening a New Browser Window	266
Task 128: Adding a Pop-Up Message Window That Displays a JavaScript Alert	268
Task 129: Making a Simple Pop-Up Menu	270
Task 130: Inserting and Editing a Fireworks HTML Navigation File	272
Task 131: Making a Drag-and-Drop Object	274
Task 132: Adding Text That Is Seen in the Status Bar	276
Task 133: Making a Navigation Bar	278
Task 134: Changing Text in a Layer Dynamically or Adding Submenus Dynamically	280
Task 135: Making a Photo Album	282
Task 136: Getting More Extensions	284
Task 137: Installing Extensions	286
Task 138: Displaying Random Images	288
Task 139: Building an Image Gallery	290
Task 140: Building a Photo Album Using Design Templates	292
Task 141: Using a Shopping Cart Extension	294
Part 8: Using External Media	297
Task 142: Inserting a Flash Element (Image Viewer)	298
Task 143: Editing the Image Viewer	300
Task 144: Making Media Objects Accessible	302
Task 145: Adding a Flash Movie to an HTML Page	304
Task 146: Editing Flash Media	306
Task 147: Adding a Flash Button	308
Task 148: Editing a Flash Button	310
Task 149: Inserting Flash Text	312
Task 150: Linking to Audio Files	314
Task 151: Embedding Audio Files	316
Task 152: Playing Background Music Automatically	318
Task 153: Inserting ActiveX	320
Task 154: Inserting Applets	322
Task 155: Inserting a Shockwave Movie	324
Task 156: Inserting a QuickTime Movie	326
Part 9: Styling with CSS Styles	329
Task 157: Adding a New Style	330
Task 158: Defining a Custom Style	332

Task 159: Applying a Custom Style	334
Task 160: Redefining an HTML Tag	336
Task 161: Using Advanced Selectors: Pseudo-Classes	338
Task 162: Grouping Selectors	340
Task 163: Styles within Styles: Using Contextual Selectors	342
Task 164: Linking to an External Style Sheet	344
Task 165: Converting an Internal (Embedded) Style into an External Style	346
Task 166: Editing Styles	348
Task 167: Using a CSS Template	350
Task 168: Using the Tag Inspector	352
Task 169: Formatting Lists Using CSS	354
Task 170: Adding a Background Style	356
Task 171: Adding a Border	358
Task 172: Making Links with No Underlines	360
Task 173: Changing Link Colors	362
Task 174: Using Different Colors for Different Links	364
Task 175: Using Design Time Style Sheets	366
Task 176: Embedding a Layer Using CSS	368
Task 177: Checking CSS Compatibility with Different Browsers	370
Task 178: Inserting Content Blocks (DIVs)	372
Task 179: Creating a Container to Hold a Banner (ID Selector, DIV, Background Image)	374
Task 180: Creating a Container to Hold Columns	376
Task 181: Adding Two Columns to a DIV Container	378
Part 10: Automating with Library Items and Templates	381
Task 182: Saving as a Library Item	382
Task 183: Using Simple Library Items	384
Task 184: Using Complex Library Items	386
Task 185: Making Simple Edits to Library Items	388
Task 186: Making Complex Edits to Library Items	390
Task 187: Creating a Dreamweaver Template	392
Task 188: Using a Template to Create Child Pages	394
Task 189: Applying a Template to an Existing Page	396
Task 190: Converting a Static Page to a Template Instance	398
Task 191: Detaching a Template by File or Sitewide	400
Task 192: Working with Library Items in Templates	402
Task 193: Using Optional Regions	404
Task 194: Using Editable Optional Regions	406

Task 195: Using Repeating Regions	408
Task 196: Using Repeating Tables	410
Task 197: Using Parameters	412
Task 198: Using Expressions	414
Task 199: Using Multiple Conditional Regions	416
Task 200: Making the Body onLoad Event Editable	418
Part 11: Working with Code	421
Task 201: Finding and Replacing Code and Text	422
Task 202: Using Advanced Find and Replace	424
Task 203: Saving History Steps and Recording a Command	426
Task 204: Commenting Your Code	428
Task 205: Customizing the Code View	430
Task 206: Using Snippets	432
Task 207: Saving Snippets	434
Task 208: Reusing JavaScript Code	436
Task 209: Using the Tag Library	438
Task 210: Using the Tag Editor	440
Task 211: Making Quick Code Changes with the Quick Tag Editor	442
Task 212: Controlling How Dreamweaver Writes Your Code	444
Task 213: Linking to an External Script	446
Task 214: Preventing Your Handwritten Code from Being Modified	448
Task 215: Adding New Tags to the Tag Library	450
Part 12: Setting Up Web Applications	453
Task 216: Installing IIS and PWS	454
Task 217: Setting Up a Local Web and Testing Server	456
Task 218: Defining a Remote Web and Testing Server	458
Task 219: Installing ColdFusion MX	460
Task 220: Setting Up an ODBC Driver	462
Task 221: Setting Up a Local DSN Connection	464
Task 222: Setting Up a Remote DSN Connection	466
Task 223: Setting Up a DSN-less Connection	468
Task 224: Using the MapPath Method	470
Task 225: Transferring Files to a Server	472
Task 226: RDS Login for ColdFusion	474
Task 227: Adding a ColdFusion Data Source	476
Task 228: Applying Directory Database Permissions	478

Part 13: Making Your Site Dynamic	481
Task 229: Adding a Recordset	482
Task 230: Adding Dynamic Text	484
Task 231: Adding Dynamic Images	486
Task 232: Making HTML Attributes Dynamic	488
Task 233: Formatting Dynamic Data	490
Task 234: Viewing a Record from a Database	492
Task 235: Making an E-mail Link Dynamic	494
Task 236: Adding Repeat Regions	496
Task 237: Inserting Records into a Database (Add Instant Form)	498
Task 238: Inserting Records into a Database (Use Existing Form)	500
Task 239: Authenticating Username	502
Task 240: Deleting Records	504
Task 241: Updating Records	506
Task 242: Building a Recordset Navigation Bar	508
Task 243: Setting the Recordset Navigation Status	510
Task 244: Building Login Pages	512
Task 245: Validating the Login Entries	514
Task 246: Restricting Access to a Specific Page	516
Task 247: Logging Out Users	518
Task 248: Building Dynamic Menus	520
Task 249: Building a Master-Detail Page	522
Task 250: Viewing One Record (Passing Single Values)	524
Task 251: Building a Page to Receive Data from Another (Receiving Single Values)	526
Task 252: Creating Search Pages	528
Task 253: Building a Results Page	530
Index	533
