Introduction	xi
 <i>Chapter 1</i> Introduction to JFC and Swing	1
Introduction	1
JFC/Swing Features.	2
Java 2D API	3
What Is a Pluggable Look and Feel?.	4
Accessibility	4
Drag and Drop	5
The Java Foundation Classes (JFC)	5
Swing.	7
Some Key JFC Classes	7
The SwingSet Demo	10
Writing a JFC Application	11
Summary	11
Review Questions	12
 <i>Chapter 2</i> The Abstract Windowing Toolkit	13
Introduction	13
What Is AWT?.	14
Components and Containers in AWT	15
Types of Containers	16
Creating a Container	17
Example 2.1	18
Example 2.2	19
Managing Component Layout.	21
Example 2.3	23
Event Handling	24
Example 2.4	25
Example 2.5	28
A Significant JBuilder Example.	35
Example 2.6	35
Summary	50
Review Questions	50

Chapter 3 User Input	51
Introduction	51
JTextField	52
Example 3.1	55
JPasswordField	64
JLabel	65
JTextArea	67
Example 3.2	69
The EditorKit	73
JTextPane	73
JEditorPane	75
JButton	77
Example 3.3	79
Summary	82
Review Questions	83
 Chapter 4 Look and Feel	 85
Introduction	85
Layout Managers	87
BorderLayout	90
GridLayout	91
Example 4.1	91
XYLayout	100
Example 4.2	100
FlowLayout	103
VerticalFlowLayout	103
Example 4.3	104
BoxLayout2	106
CardLayout	107
Example 4.4	107
OverlayLayout	111
GridbagLayout	111
PanelLayout	111
Example 4.5	111
Look and Feel	114
Summary	116
Review Questions	116
 Chapter 5 Container Components	 117
Introduction	117
JPanel	119
JTabbedPane	121
Example 5.1	123
JScrollPane	126

Example 5.2	128
JSplitPane	131
Example 5.3	133
JBox	136
Summary	137
Review Questions	137
 Chapter 6 Handling Events	139
Introduction	139
Events	140
Listeners	142
Applying Events	142
Anonymous Inner Class Adapters	144
Summary	145
Review Questions	145
 Chapter 7 User Choices	147
Introduction	147
JRadioButton	148
Example 7.1	150
JToggleButton	155
Example 7.2	156
JCheckBox	159
Example 7.3	161
JComboBox	164
Example 7.4	167
JList	171
Example 7.5	173
JSlider	176
Example 7.6	177
Summary	181
Review Questions	181
 Chapter 8 Menus and Toolbars	183
Introduction	183
Menus	184
Example 8.1	192
Toolbars	194
Example 8.2	
A Practical Example	200
Example 8.3	200
Summary	208
Review Questions	209

<i>Chapter 9</i>	Dialogs	211
	Introduction	211
	What Is a Dialog?	211
	Using Dialogs	214
	Creating Custom Dialogs	216
	Example 9.1	217
	Using the Color Chooser.	220
	Example 9.2	224
	Using the File Chooser.	228
	Example 9.3	230
	Summary	233
	Review Questions	233
<i>Chapter 10</i>	The Graphics Class.	235
	Introduction	235
	Graphics Class Essentials	235
	Graphics Class Details	236
	Example 10.1.	239
	A Practical Example	245
	Example 10.2.	245
	Summary	250
	Review Questions	251
<i>Chapter 11</i>	JFC Databases	253
	Introduction	253
	Swing	254
	Example 11.1.	257
	Example 11.2.	259
	dbSwing	267
	Summary	269
	Review Questions	269
<i>Chapter 12</i>	JFC Applets	271
	Introduction	271
	Applet Basics.	271
	Creating Applets in JBuilder	274
	Example 12.1.	278
	Creating Applets with Parameters	285
	Example 12.2.	285
	Creating Dual-purpose Applets	293
	Example 12.3.	294
	Summary	298
	Review Questions	298

<i>Chapter 13</i>	Java 2D API	299
	Introduction	299
	Basics of the Java 2D API	299
	The Graphics2D Class	300
	Example 13.1	302
	Coordinate Spaces and the Graphics2D Class	308
	The Rendering Process	310
	Images and the Java 2D API	312
	Example 13.2	312
	Summary	316
	Review Questions	316
 <i>Chapter 14</i>	 Threads and Swing	 317
	Introduction	317
	Thread Basics	318
	The Single-Thread Rule	319
	Using Threads in Java	323
	Thread-Safe Applications in JBuilder	327
	Example 14.1	327
	Summary	333
	Review Questions	333
 <i>Appendix A</i>	 Other Resources	 335
 <i>Appendix B</i>	 JFC/Swing Glossary	 339
 <i>Appendix C</i>	 Answers to Review Questions	 341
 <i>Appendix D</i>	 Introduction to Database Programming	 355
 <i>Appendix E</i>	 HTML Primer	 363
	Index	375
