Part I Introduction to UNIX and Shell Tools

Hour 1: Shell Basics

- What Is a Command?
- What Is the Shell?
- Summary
- Questions
- Terms

Hour 2: Script Basics

- The UNIX System
- Shell Initialization
- Getting Help
- Summary
- Questions
- Terms

Hour 3: Working with Files

- Listing Files
- Viewing the Content of a File
- Manipulating Files
- Summary
- Questions
- Terms

Hour 4: Working With Directories

- The Directory Tree
- Switching Directories
- Listing Files and Directories
- Manipulating Directories
- Summary
- Questions

Hour 5: Manipulating File Attributes

- File Types
- Owners, Groups, and Permissions
- Summary
- Questions

Hour 6: Processes

- Starting a Process
- Listing Running Processes
- Killing a Process (kill Command)
- Parent and Child Processes
- Summary
- Questions
- Terms

Part II Shell Programming

Hour 7: Variables

- Defining Variables
- Unsetting Variables
- Environment Variables
- Summary
- Questions
- Terms

Hour 8: Substitution

- Filename Substitution (Globbing)
- Variable Substitution
- Command and Arithmetic Substitution
- Summary
- Questions

Hour 9: Quoting

- Quoting with Backslashes

- Using Single Quotes
- Using Double Quotes
- Quoting Rules and Situations
- Summary
- Questions
- Terms

Hour 10: Flow Control

- The if Statement
- The case Statement
- Summary
- Questions

Hour 11: Loops

- The while Loop
- The for and select Loops
- Loop Control
- Summary
- Questions
- Terms

Hour 12: Parameters

- Special Variables
- Options and Arguments
- Option Parsing in Shell Scripts
- Conclusion
- Questions

Hour 13: Input/Output

- Output
- Input
- File Descriptors
- Summary
- Questions
- Terms

Hour 14: Functions

- Creating and Using Functions
- Sharing Data Between Functions, an Example
- Conclusion
- Questions

Hour 15: Text Filters

- The head and tail Commands
- Using grep
- Counting Words
- Summary
- Questions

Hour 16: Filtering Text Using Regular Expressions

- The Basics of awk and sed
- Using sed
- Summary
- Questions

Hour 17: Filtering Text with awk

- What is awk?
- Using awk Features
- Summary
- Questions
- Terms

Hour 18: Miscellaneous Tools

- The eval Command
- The : Command
- The type Command
- The sleep Command
- The find Command
- xargs
- The expr Command
- The bc Command
- remsh/rsh/rcmd/remote (Remote Shell)
- Summary
- Questions
- Terms

Part III Advanced Topics

Hour 19: Dealing with Signals

- How Are Signal Represented?
- Dealing with Signals
- Conclusion

- Questions

Hour 20: Debugging

- Enabling Debugging
- Syntax Checking
- Shell Tracing
- Summary
- Questions

Hour 21: Problem Solving with Functions

- Creating a Library of Functions
- Useful Functions
- Summary
- Questions
- Terms

Hour 22: Problem Solving with Shell Scripts

- Moving Directories
- Maintaining an Address Book
- Summary
- Questions
- Terms

Hour 23: Scripting for Portability

- Determining UNIX Versions
- Techniques for Increasing Portability
- Summary
- Questions
- Terms

Hour 24: Shell Programming FAQs

- Shell and Command Questions
- Variable and Argument Questions
- File and Directory Questions
- Summary

Part IV Appendixes

Appendix A: Command Quick Reference

- Reserved Words and Built-in Shell Commands
- Conditional Expressions
- Arithmetic Expressions (Korn/Bash Only)
- Parameters and Variables
- Parameter Substitution
- Pattern Matching
- I/O
- Miscellaneous Command Summaries
- Regular Expression Wildcards
- Summary
- Questions

Appendix B: Glossary

Appendix C: Quiz Answers

- Chapter 1
- Chapter 2
- Chapter 3
- Chapter 4
- Chapter 5
- Chapter 6
- Chapter 7
- Chapter 8
- Chapter 9
- Chapter 10
- Chapter 11
- Chapter 12
- Chapter 13
- Chapter 14
- Chapter 15
- Chapter 16
- Chapter 17
- Chapter 18
- Chapter 19
- Chapter 20
- Chapter 21
- Chapter 22
- Chapter 23
- Appendix A
