<b>SECTION I SOFTWARE QUALITY IN PERSPECTIVE .....</b>	<b>1</b>
<b>1 Quality Assurance Framework.....</b>	<b>5</b>
What Is Quality?.....	5
Prevention versus Detection .....	6
Verification versus Validation.....	7
Software Quality Assurance .....	8
Components of Quality Assurance .....	9
Software Testing.....	10
Quality Control.....	11
Software Configuration Management .....	12
Elements of Software Configuration Management.....	12
Component Identification .....	13
Version Control.....	14
Configuration Building.....	14
Change Control.....	15
Software Quality Assurance Plan.....	16
Steps to Develop and Implement a Software Quality Assurance Plan.....	16
Step 1. Document the Plan.....	16
Step 2. Obtain Management Acceptance .....	18
Step 3. Obtain Development Acceptance.....	18
Step 4. Plan for Implementation of the SQA Plan .....	19
Step 5. Execute the SQA Plan.....	19
Quality Standards.....	19
ISO9000 .....	19
Capability Maturity Model (CMM) .....	20
Level 1 — Initial.....	21
Level 2 — Repeatable.....	21
Level 3 — Defined.....	22
Level 4 — Managed.....	22
Level 5 — Optimized .....	23
PCMM .....	23
CMMI.....	24
Malcom Baldrige National Quality Award .....	24
Notes .....	27

<b>2 Overview of Testing Techniques .....</b>	<b>29</b>
Black-Box Testing (Functional).....	29
White-Box Testing (Structural).....	30
Gray-Box Testing (Functional and Structural) .....	30
Manual versus Automated Testing .....	31
Static versus Dynamic Testing.....	31
Taxonomy of Software Testing Techniques .....	32
<b>3 Quality through Continuous Improvement Process .....</b>	<b>41</b>
Contribution of Edward Deming.....	41
Role of Statistical Methods .....	42
Cause-and-Effect Diagram.....	42
Flow Chart .....	42
Pareto Chart.....	42
Run Chart .....	42
Histogram .....	43
Scatter Diagram .....	43
Control Chart .....	43
Deming's 14 Quality Principles.....	43
Point 1: Create Constancy of Purpose.....	43
Point 2: Adopt the New Philosophy .....	44
Point 3: Cease Dependence on Mass Inspection.....	44
Point 4: End the Practice of Awarding Business on Price	
Tag Alone .....	44
Point 5: Improve Constantly and Forever the System	
of Production and Service .....	45
Point 6: Institute Training and Retraining .....	45
Point 7: Institute Leadership .....	45
Point 8: Drive Out Fear .....	46
Point 9: Break Down Barriers between Staff Areas .....	46
Point 10: Eliminate Slogans, Exhortations, and Targets	
for the Workforce.....	47
Point 11: Eliminate Numerical Goals .....	47
Point 12: Remove Barriers to Pride of Workmanship .....	47
Point 13: Institute a Vigorous Program of Education and	
Retraining.....	48
Point 14: Take Action to Accomplish the Transformation .....	48
Continuous Improvement through the Plan, Do, Check,	
Act Process .....	48
Going around the PDCA Circle .....	50
<b>SECTION II LIFE CYCLE TESTING REVIEW .....</b>	<b>51</b>
<b>4 Overview .....</b>	<b>53</b>
Waterfall Development Methodology .....	53
Continuous Improvement “Phased” Approach .....	54

Psychology of Life Cycle Testing . . . . .	54
Software Testing as a Continuous Improvement Process. . . . .	55
The Testing Bible: Software Test Plan . . . . .	58
Major Steps to Develop a Test Plan . . . . .	60
1. Define the Test Objectives . . . . .	60
2. Develop the Test Approach . . . . .	60
3. Define the Test Environment . . . . .	60
4. Develop the Test Specifications . . . . .	61
5. Schedule the Test . . . . .	61
6. Review and Approve the Test Plan . . . . .	61
Components of a Test Plan . . . . .	61
Technical Reviews as a Continuous Improvement Process . . . . .	61
Motivation for Technical Reviews . . . . .	65
Types of Reviews . . . . .	66
Structured Walkthroughs . . . . .	66
Inspections . . . . .	66
Participant Roles . . . . .	69
Steps for an Effective Review . . . . .	70
1. Plan for the Review Process. . . . .	70
2. Schedule the Review . . . . .	70
3. Develop the Review Agenda . . . . .	71
4. Create a Review Report . . . . .	71
<b>5    Verifying the Requirements Phase . . . . .</b>	<b>73</b>
Testing the Requirements with Technical Reviews . . . . .	74
Inspections and Walkthroughs . . . . .	74
Checklists . . . . .	74
Methodology Checklist . . . . .	75
Requirements Traceability Matrix . . . . .	76
Building the System/Acceptance Test Plan . . . . .	76
<b>6    Verifying the Logical Design Phase . . . . .</b>	<b>79</b>
Data Model, Process Model, and the Linkage. . . . .	79
Testing the Logical Design with Technical Reviews . . . . .	80
Refining the System/Acceptance Test Plan . . . . .	81
<b>7    Verifying the Physical Design Phase . . . . .</b>	<b>83</b>
Testing the Physical Design with Technical Reviews . . . . .	83
Creating Integration Test Cases . . . . .	85
Methodology for Integration Testing. . . . .	85
Step 1: Identify Unit Interfaces. . . . .	85
Step 2: Reconcile Interfaces for Completeness . . . . .	85
Step 3: Create Integration Test Conditions . . . . .	86
Step 4: Evaluate the Completeness of Integration Test Conditions . . . . .	86

<b>8</b>	<b>Verifying the Program Unit Design Phase .....</b>	<b>87</b>
	Testing the Program Unit Design with Technical Reviews .....	87
	Sequence .....	87
	Selection .....	87
	Iteration .....	87
	Creating Unit Test Cases .....	88
<b>9</b>	<b>Verifying the Coding Phase.....</b>	<b>91</b>
	Testing Coding with Technical Reviews .....	91
	Executing the Test Plan .....	91
	Unit Testing .....	92
	Integration Testing .....	93
	System Testing .....	93
	Acceptance Testing .....	94
	Defect Recording .....	95
	<b>SECTION III SOFTWARE TESTING METHODOLOGY.....</b>	<b>97</b>
<b>10</b>	<b>Development Methodology Overview .....</b>	<b>99</b>
	Limitations of Life Cycle Development .....	99
	The Client/Server Challenge .....	100
	Psychology of Client/Server Spiral Testing.....	101
	The New School of Thought.....	101
	Tester/Developer Perceptions .....	102
	Project Goal: Integrate QA and Development .....	103
	Iterative/Spiral Development Methodology.....	104
	Role of JADs .....	106
	Role of Prototyping .....	107
	Methodology for Developing Prototypes .....	108
	1. Develop the Prototype .....	108
	2. Demonstrate Prototypes to Management.....	110
	3. Demonstrate Prototype to Users.....	110
	4. Revise and Finalize Specifications.....	111
	5. Develop the Production System .....	111
	Continuous Improvement “Spiral” Testing Approach .....	112
<b>11</b>	<b>Information Gathering (Plan).....</b>	<b>117</b>
	Step 1: Prepare for the Interview .....	117
	Task 1: Identify the Participants .....	117
	Task 2: Define the Agenda.....	118
	Step 2: Conduct the Interview .....	118
	Task 1: Understand the Project .....	118
	Task 2: Understand the Project Objectives .....	121
	Task 3: Understand the Project Status .....	121
	Task 4: Understand the Project Plans .....	122
	Task 5: Understand the Project Development Methodology .....	122
	Task 6: Identify the High-Level Business Requirements .....	123

Task 7: Perform Risk Analysis .....	124
Computer Risk Analysis.....	124
Method 1 — Judgment and Instinct.....	125
Method 2 — Dollar Estimation .....	125
Method 3 — Identifying and Weighting Risk Attributes.....	125
Step 3: Summarize the Findings .....	126
Task 1: Summarize the Interview.....	126
Task 2: Confirm the Interview Findings .....	127
<b>12 Test Planning (Plan) .....</b>	<b>129</b>
Step 1: Build a Test Plan .....	130
Task 1: Prepare an Introduction .....	130
Task 2: Define the High-Level Functional Requirements (in Scope) .....	131
Task 3: Identify Manual/Automated Test Types .....	132
Task 4: Identify the Test Exit Criteria .....	133
Task 5: Establish Regression Test Strategy .....	134
Task 6: Define the Test Deliverables .....	136
Task 7: Organize the Test Team.....	137
Task 8: Establish a Test Environment.....	138
Task 9: Define the Dependencies.....	139
Task 10: Create a Test Schedule .....	139
Task 11: Select the Test Tools .....	142
Task 12: Establish Defect Recording/Tracking Procedures .....	143
Task 13: Establish Change Request Procedures .....	145
Task 14: Establish Version Control Procedures.....	147
Task 15: Define Configuration Build Procedures.....	147
Task 16: Define Project Issue Resolution Procedures.....	148
Task 17: Establish Reporting Procedures.....	148
Task 18: Define Approval Procedures.....	149
Step 2: Define the Metric Objectives .....	149
Task 1: Define the Metrics .....	150
Task 2: Define the Metric Points .....	151
Step 3: Review/Approve the Plan.....	154
Task 1: Schedule/Conduct the Review .....	154
Task 2: Obtain Approvals .....	154
<b>13 Test Case Design (Do) .....</b>	<b>157</b>
Step 1: Design Function Tests.....	157
Task 1: Refine the Functional Test Requirements .....	157
Task 2: Build a Function/Test Matrix .....	159
Step 2: Design GUI Tests .....	163
Ten Guidelines for Good GUI Design.....	164
Task 1: Identify the Application GUI Components .....	165
Task 2: Define the GUI Tests.....	165

Step 3: Define the System/Acceptance Tests .....	167
Task 1: Identify Potential System Tests.....	167
Task 2: Design System Fragment Tests.....	168
Task 3: Identify Potential Acceptance Tests.....	169
Step 4: Review/Approve Design .....	169
Task 1: Schedule/Prepare for Review .....	169
Task 2: Obtain Approvals .....	169
<b>14 Test Development (Do) .....</b>	<b>173</b>
Step 1: Develop Test Scripts .....	173
Task 1: Script the Manual/Automated GUI/Function Tests .....	173
Task 2: Script the Manual/Automated System Fragment Tests .....	173
Step 2: Review/Approve Test Development .....	174
Task 1: Schedule/Prepare for Review .....	174
Task 2: Obtain Approvals .....	174
<b>15 Test Coverage through Traceability.....</b>	<b>177</b>
Use Cases and Traceability.....	178
Summary .....	180
<b>16 Test Execution/Evaluation (Do/Check).....</b>	<b>181</b>
Step 1: Setup and Testing .....	181
Task 1: Regression Test the Manual/Automated Spiral Fixes... .	181
Task 2: Execute the Manual/Automated New Spiral Tests .....	182
Task 3: Document the Spiral Test Defects .....	183
Step 2: Evaluation .....	183
Task 1: Analyze the Metrics .....	183
Step 3: Publish Interim Report .....	184
Task 1: Refine the Test Schedule .....	184
Task 2: Identify Requirement Changes .....	185
<b>17 Prepare for the Next Spiral (Act) .....</b>	<b>187</b>
Step 1: Refine the Tests .....	187
Task 1: Update the Function/GUI Tests.....	187
Task 2: Update the System Fragment Tests .....	188
Task 3: Update the Acceptance Tests .....	189
Step 2: Reassess the Team, Procedures, and Test Environment....	189
Task 1: Evaluate the Test Team .....	189
Task 2: Review the Test Control Procedures .....	189
Task 3: Update the Test Environment .....	190
Step 3: Publish Interim Test Report .....	191
Task 1: Publish the Metric Graphics .....	191
Test Case Execution Status .....	191
Defect Gap Analysis .....	191
Defect Severity Status.....	191
Test Burnout Tracking .....	192

<b>18</b>	<b>Conduct the System Test . . . . .</b>	<b>195</b>
	Step 1: Complete System Test Plan . . . . .	195
	Task 1: Finalize the System Test Types . . . . .	195
	Task 2: Finalize System Test Schedule . . . . .	197
	Task 3: Organize the System Test Team . . . . .	197
	Task 4: Establish the System Test Environment . . . . .	197
	Task 5: Install the System Test Tools . . . . .	200
	Step 2: Complete System Test Cases . . . . .	200
	Task 1: Design/Script the Performance Tests . . . . .	200
	Monitoring Approach . . . . .	201
	Probe Approach . . . . .	202
	Test Drivers . . . . .	202
	Task 2: Design/Script the Security Tests . . . . .	203
	A Security Design Strategy . . . . .	203
	Task 3: Design/Script the Volume Tests . . . . .	204
	Task 4: Design/Script the Stress Tests . . . . .	205
	Task 5: Design/Script the Compatibility Tests . . . . .	206
	Task 6: Design/Script the Conversion Tests . . . . .	206
	Task 7: Design/Script the Usability Tests . . . . .	207
	Task 8: Design/Script the Documentation Tests . . . . .	208
	Task 9: Design/Script the Backup Tests . . . . .	208
	Task 10: Design/Script the Recovery Tests . . . . .	209
	Task 11: Design/Script the Installation Tests . . . . .	209
	Task 12: Design/Script Other System Test Types . . . . .	210
	Step 3: Review/Approve System Tests . . . . .	211
	Task 1: Schedule/Conduct the Review . . . . .	211
	Task 2: Obtain Approvals . . . . .	212
	Step 4: Execute the System Tests . . . . .	212
	Task 1: Regression Test the System Fixes . . . . .	212
	Task 2: Execute the New System Tests . . . . .	213
	Task 3: Document the System Defects . . . . .	213
<b>19</b>	<b>Conduct Acceptance Testing . . . . .</b>	<b>215</b>
	Step 1: Complete Acceptance Test Planning . . . . .	215
	Task 1: Finalize the Acceptance Test Types . . . . .	215
	Task 2: Finalize the Acceptance Test Schedule . . . . .	215
	Task 3: Organize the Acceptance Test Team . . . . .	215
	Task 4: Establish the Acceptance Test Environment . . . . .	217
	Task 5: Install Acceptance Test Tools . . . . .	218
	Step 2: Complete Acceptance Test Cases . . . . .	218
	Task 1: Subset the System-Level Test Cases . . . . .	218
	Task 2: Design/Script Additional Acceptance Tests . . . . .	219
	Step 3: Review/Approve Acceptance Test Plan . . . . .	219
	Task 1: Schedule/Conduct the Review . . . . .	219
	Task 2: Obtain Approvals . . . . .	220

Step 4: Execute the Acceptance Tests . . . . .	220
Task 1: Regression Test the Acceptance Fixes . . . . .	220
Task 2: Execute the New Acceptance Tests . . . . .	220
Task 3: Document the Acceptance Defects . . . . .	221
<b>20 Summarize/Report Spiral Test Results . . . . .</b>	<b>223</b>
Step 1: Perform Data Reduction . . . . .	223
Task 1: Ensure All Tests Were Executed/Resolved . . . . .	223
Task 2: Consolidate Test Defects by Test Number . . . . .	223
Task 3: Post Remaining Defects to a Matrix . . . . .	223
Step 2: Prepare Final Test Report . . . . .	224
Task 1: Prepare the Project Overview . . . . .	225
Task 2: Summarize the Test Activities . . . . .	225
Task 3: Analyze/Create Metric Graphics . . . . .	225
Defects by Function . . . . .	225
Defects by Tester . . . . .	227
Defect Gap Analysis . . . . .	227
Defect Severity Status . . . . .	227
Test Burnout Tracking . . . . .	227
Root Cause Analysis . . . . .	227
Defects by How Found . . . . .	230
Defects by Who Found . . . . .	230
Functions Tested and Not . . . . .	230
System Testing Defect Types . . . . .	230
Acceptance Testing Defect Types . . . . .	232
Task 4: Develop Findings/Recommendations . . . . .	232
Step 3: Review/Approve the Final Test Report . . . . .	233
Task 1: Schedule/Conduct the Review . . . . .	233
Task 2: Obtain Approvals . . . . .	236
Task 3: Publish the Final Test Report . . . . .	236
<b>SECTION IV TEST PROJECT MANAGEMENT . . . . .</b>	<b>237</b>
<b>21 Overview of General Project Management . . . . .</b>	<b>239</b>
Define the Objectives . . . . .	239
Define the Scope of the Project . . . . .	240
Identify the Key Activities . . . . .	240
Estimate Correctly . . . . .	240
Design . . . . .	241
Manage People . . . . .	241
Leadership . . . . .	242
Communication . . . . .	242
Solving Problems . . . . .	243
Continuous Monitoring . . . . .	243
Manage Changes . . . . .	243

<b>22</b>	<b>Test Project Management . . . . .</b>	<b>245</b>
	Understand the Requirements . . . . .	246
	Test Planning . . . . .	246
	Test Execution . . . . .	247
	Identify and Improve Processes. . . . .	247
	Essential Characteristics of a Test Project Manager . . . . .	248
	Requirement Analysis . . . . .	248
	Gap Analysis. . . . .	248
	Lateral Thinking in Developing Test Cases . . . . .	248
	Avoid Duplication and Repetition . . . . .	249
	Test Data Generation . . . . .	249
	Validate the Test Environment. . . . .	249
	Test to Destroy . . . . .	249
	Analyze the Test Results . . . . .	249
	Do Not Hesitate to Accept Help from Others. . . . .	250
	Convey Issues as They Arise . . . . .	250
	Improve Communication . . . . .	250
	Always Keep Updating Your Business Knowledge . . . . .	250
	Learn the New Testing Technologies and Tools . . . . .	250
	Deliver Quality. . . . .	251
	Improve the Process . . . . .	251
	Create a Knowledge Base . . . . .	251
	Repeat the Success . . . . .	251
<b>23</b>	<b>Test Estimation . . . . .</b>	<b>253</b>
	Finish-to-Start: (FS) . . . . .	255
	Start-to-Start: (SS) . . . . .	255
	Finish-to-Finish: (FF) . . . . .	255
	Start-to-Finish (SF). . . . .	255
	Critical Activities for Test Estimation . . . . .	255
	Test Scope Document . . . . .	256
	Test Strategy . . . . .	256
	Test Condition . . . . .	257
	Test Case . . . . .	257
	Test Script . . . . .	257
	Execution/Run Plan. . . . .	257
	Factors Affecting Test Estimation . . . . .	257
	Test Planning Estimation . . . . .	258
	Test Execution and Controlling Effort. . . . .	259
	Test Result Analysis. . . . .	259
	Effort Estimation — Model Project . . . . .	259
<b>24</b>	<b>Defect Monitoring and Management Process . . . . .</b>	<b>263</b>
	Defect Reporting . . . . .	264
	Defect Meetings . . . . .	265

Defect Classifications .....	265
Defect Priority.....	266
Defect Category .....	266
Defect Metrics .....	267
<b>25 Integrating Testing into Development Methodology.....</b>	<b>269</b>
Step 1. Organize the Test Team .....	270
Step 2. Identify Test Steps and Tasks to Integrate .....	270
Step 3. Customize Test Steps and Tasks .....	271
Step 4. Select Integration Points.....	271
Step 5. Modify the Development Methodology .....	272
Step 6. Incorporate Defect Recording .....	272
Step 7. Train in Use of the Test Methodology.....	272
<b>26 On-Site/Offshore Model .....</b>	<b>275</b>
Step 1: Analysis.....	275
Step 2: Determine the Economic Tradeoffs.....	276
Step 3: Determine the Selection Criteria.....	276
Project Management and Monitoring .....	276
Outsourcing Methodology .....	277
On-Site Activities .....	278
Offshore Activities.....	278
Implementing the On-Site/Offshore Model .....	279
Knowledge Transfer .....	279
Detailed Design .....	280
Milestone-Based Transfer.....	280
Steady State .....	280
Application Management .....	280
Relationship Model .....	281
Standards .....	282
Benefits of On-Site/Offshore Methodology .....	283
On-Site/Offshore Model Challenges.....	285
Out of Sight .....	285
Establish Transparency .....	285
Security Considerations.....	285
Project Monitoring .....	285
Management Overhead .....	285
Cultural Differences .....	285
Software Licensing .....	285
The Future of Onshore/Offshore .....	286
<b>SECTION V MODERN SOFTWARE TESTING TOOLS .....</b>	<b>287</b>
<b>27 A Brief History of Software Testing .....</b>	<b>289</b>
Evolution of Automated Testing Tools .....	293
Static Capture/Replay Tools (without Scripting Language)....	294
Static Capture/Replay Tools (with Scripting Language).....	294

Variable Capture/Replay Tools .....	295
Functional Decomposition Approach .....	295
Test Plan Driven (“Keyword”) Approach.....	296
Historical Software Testing and Development Parallels.....	298
Extreme Programming .....	299
<b>28 Software Testing Trends .....</b>	<b>301</b>
Automated Capture/Replay Testing Tools .....	301
Test Case Builder Tools.....	302
Advanced Leading-Edge Automated Testing Tools .....	302
Advanced Leading-Edge Test Case Builder Tools .....	304
Necessary and Sufficient Conditions.....	304
Test Data/Test Case Generation.....	305
Sampling from Production .....	305
Starting from Scratch .....	306
Seeding the Data .....	306
Generating Data Based upon the Database .....	307
Generating Test Data/Test Cases Based upon the Requirements.....	308
<b>29 Taxonomy of Testing Tools .....</b>	<b>311</b>
Testing Tool Selection Checklist .....	311
Vendor Tool Descriptions .....	312
When You Should Consider Test Automation .....	312
When You Should NOT Consider Test Automation.....	320
<b>30 Methodology to Evaluate Automated Testing Tools .....</b>	<b>323</b>
Step 1: Define Your Test Requirements .....	323
Step 2: Set Tool Objectives .....	323
Step 3a: Conduct Selection Activities for Informal Procurement .....	324
Task 1: Develop the Acquisition Plan .....	324
Task 2: Define Selection Criteria .....	324
Task 3: Identify Candidate Tools .....	324
Task 4: Conduct the Candidate Review .....	325
Task 5: Score the Candidates .....	325
Task 6: Select the Tool .....	325
Step 3b: Conduct Selection Activities for Formal Procurement .....	326
Task 1: Develop the Acquisition Plan .....	326
Task 2: Create the Technical Requirements Document .....	326
Task 3: Review Requirements .....	326
Task 4: Generate the Request for Proposal .....	326
Task 5: Solicit Proposals .....	326
Task 6: Perform the Technical Evaluation .....	327
Task 7: Select a Tool Source.....	327

Step 4: Procure the Testing Tool .....	327
Step 5: Create the Evaluation Plan .....	327
Step 6: Create the Tool Manager's Plan .....	328
Step 7: Create the Training Plan .....	328
Step 8: Receive the Tool .....	328
Step 9: Perform the Acceptance Test .....	329
Step 10: Conduct Orientation .....	329
Step 11: Implement Modifications .....	329
Step 12: Train Tool Users .....	329
Step 13: Use the Tool in the Operating Environment .....	330
Step 14: Write the Evaluation Report .....	330
Step 15: Determine Whether Goals Have Been Met .....	330
<b>APPENDICES .....</b>	<b>331</b>
<b>A Spiral Testing Methodology .....</b>	<b>333</b>
<b>B Software Quality Assurance Plan .....</b>	<b>343</b>
<b>C Requirements Specification .....</b>	<b>345</b>

F32: Test Case Preparation Review Checklist . . . . .	449
<b>G Software Testing Techniques . . . . .</b>	<b>451</b>
G1: Basis Path Testing . . . . .	451
PROGRAM: FIELD-COUNT . . . . .	451

G2: Black-Box Testing . . . . .	452
Extra Program Logic . . . . .	453
G3: Bottom-Up Testing . . . . .	453
G4: Boundary Value Testing . . . . .	453
Numeric Input Data . . . . .	454
Field Ranges . . . . .	454
Numeric Output Data . . . . .	454
Output Range of Values . . . . .	454
Nonnumeric Input Data . . . . .	454
Tables or Arrays . . . . .	454
Number of Items . . . . .	454
Nonnumeric Output Data . . . . .	454
Tables or Arrays . . . . .	454
Number of Outputs . . . . .	454
GUI . . . . .	454
G5: Branch Coverage Testing . . . . .	455
PROGRAM: FIELD-COUNT . . . . .	455
G6: Branch/Condition Coverage Testing . . . . .	455
PROGRAM: FIELD-COUNT . . . . .	456
G7: Cause-Effect Graphing . . . . .	456
Cause-Effect Methodology . . . . .	457
Specification . . . . .	458
Causes . . . . .	458
Effects . . . . .	458
G8: Condition Coverage . . . . .	460
PROGRAM: FIELD-COUNT . . . . .	460
G9: CRUD Testing . . . . .	461
G10: Database Testing . . . . .	461
Integrity Testing . . . . .	461
Entity Integrity . . . . .	462
Primary Key Integrity . . . . .	462
Column Key Integrity . . . . .	462
Domain Integrity . . . . .	463
User-Defined Integrity . . . . .	463
Referential Integrity . . . . .	463
Data Modeling Essentials . . . . .	464
What Is a Model? . . . . .	465
Why Do We Create Models? . . . . .	465
Tables — A Definition . . . . .	466
Table Names . . . . .	467
Columns . . . . .	467
Rows . . . . .	467
Order . . . . .	467
Entities — A Definition . . . . .	467

Identification — Primary Key .....	468
Compound Primary Keys.....	468
Null Values .....	468
Identifying Entities .....	469
Entity Classes .....	469
Relationships — A Definition.....	470
Relationship Types.....	470
One-to-One.....	470
One-to-Many .....	472
Many-to-Many .....	473
Multiple Relationships .....	475
Entities versus Relationships .....	475
Attributes — A Definition.....	476
Domain .....	477
Domain Names.....	478
Attributes versus Relationships .....	478
Normalization — What Is It? .....	479
Problems of Unnormalized Entities .....	479
Steps in Normalization .....	480
First Normal Form (1NF) .....	480
Second Normal Form (2NF).....	482
Third Normal Form (3NF) .....	484
Model Refinement.....	485
Entity Subtypes.....	486
A Definition .....	486
Referential Integrity .....	486
Dependency Constraints .....	488
Constraint Rule .....	488
Recursion.....	489
Using the Model in Database Design .....	491
Relational Design .....	491
G11: Decision Tables .....	492
PROGRAM: FIELD-COUNT.....	492
G12: Desk Checking .....	493
G13: Equivalence Partitioning .....	493
Numeric Input Data.....	494
Field Ranges.....	494
Numeric Output Data .....	494
Output Range of Values .....	494
Nonnumeric Input Data .....	494
Tables or Arrays .....	494
Number of Items .....	494
Nonnumeric Output Data.....	494
Tables or Arrays .....	494
Number of Outputs.....	494

G14: Exception Testing .....	494
G15: Free Form Testing .....	494
G16: Gray-Box Testing .....	495
G17: Histograms .....	496
G18: Inspections .....	496
G19: JADs .....	497
G20: Orthogonal Array Testing .....	498
G21: Pareto Analysis .....	499
G22: Positive and Negative Testing .....	501
G23: Prior Defect History Testing .....	502
G24: Prototyping .....	502
Cyclic Models .....	502
Fourth-Generation Languages and Prototyping .....	503
Iterative Development Accounting .....	504
Evolutionary and Throwaway .....	504
Application Prototyping .....	505
Prototype Systems Development .....	505
Data-Driven Prototyping .....	505
Replacement of the Traditional Life Cycle .....	506
Early-Stage Prototyping .....	506
User Software Engineering .....	507
G25: Random Testing .....	507
G26: Range Testing .....	507
G27: Regression Testing .....	509
G28: Risk-Based Testing .....	509
G29: Run Charts .....	510
G30: Sandwich Testing .....	510
G31: Statement Coverage Testing .....	511
PROGRAM: FIELD-COUNT .....	511
G32: State Transition Testing .....	511
PROGRAM: FIELD-COUNT .....	512
G33: Statistical Profile Testing .....	512
G34: Structured Walkthroughs .....	512
G35: Syntax Testing .....	514
G36: Table Testing .....	514
G37: Thread Testing .....	515
G38: Top-Down Testing .....	515
G39: White-Box Testing .....	516
