

Table of Contents

Preface	1
Audience	1
Contents of This Book	1
Conventions Used in This Book	3
Comments and Questions	4
Updates	4
Acknowledgments	4
 1. Why Build a Virtual Private Network?	6
1.1 What Does a VPN Do?	6
1.2 Security Risks of the Internet	8
1.3 How VPNs Solve Internet Security Issues	9
1.4 VPN Solutions	12
1.5 A Note on IP Address and Domain Name Conventions Used in This Book	13
 2. Basic VPN Technologies	14
2.1 Firewall Deployment	14
2.2 Encryption and Authentication	24
2.3 VPN Protocols	32
2.4 Methodologies for Compromising VPNs	36
2.5 Patents and Legal Ramifications	40
 3. Wide Area, Remote Access, and the VPN	42
3.1 General WAN, RAS, and VPN Concepts	42
3.2 VPN Versus WAN	44
3.3 VPN Versus RAS	50
 4. Implementing Layer 2 Connections	57
4.1 Differences Between PPTP, L2F, and L2TP	57
4.2 How PPTP Works	58
4.3 Features of PPTP	67
 5. Configuring and Testing Layer 2 Connections	69
5.1 Installing and Configuring PPTP on a Windows NT RAS Server	69
5.2 Configuring PPTP for Dial-up Networking on a Windows NT Client	76
5.3 Configuring PPTP for Dial-up Networking on a Windows 95 or 98 Client	77
5.4 Enabling PPTP on Remote Access Switches	80
5.5 Making the Calls	83
5.6 Troubleshooting Problems	84
5.7 Using PPTP with Other Security Measures	87
 6. Implementing the AltaVista Tunnel 98	89
6.1 Advantages of the AltaVista Tunnel System	90
6.2 AltaVista Tunnel Limitations	91
6.3 How the AltaVista Tunnel Works	92
6.4 VPNs and AltaVista	96
 7. Configuring and Testing the AltaVista Tunnel	107
7.1 Getting Busy	107
7.2 Installing the AltaVista Tunnel	107
7.3 Configuring the AltaVista Tunnel Extranet and Telecommuter Server	110
7.4 Configuring the AltaVista Telecommuter Client	116
7.5 Troubleshooting Problems	117

8. Creating a VPN with the Unix Secure Shell	120
8.1 The SSH Software	121
8.2 Building and Installing SSH	122
8.3 SSH Components	123
8.4 Creating a VPN with PPP and SSH	128
8.5 Troubleshooting Problems	140
8.6 A Performance Evaluation	142
9. The Cisco PIX Firewall	144
9.1 The Cisco PIX Firewall	144
9.2 The PIX in Action	144
9.3 Configuring the PIX as a Gateway	150
9.4 Configuring the Other VPN Capabilities	156
10. Managing and Maintaining Your VPN	159
10.1 Choosing an ISP	159
10.2 Solving VPN Problems	160
10.3 Delivering Quality of Service	163
10.4 Security Suggestions	164
10.5 Keeping Yourself Up-to-Date	166
11. A VPN Scenario	167
11.1 The Topology	167
11.2 Central Office	167
11.3 Large Branch Office	168
11.4 Small Branch Offices	169
11.5 Remote Access Users	169
11.6 A Network Diagram	170
A. Emerging Internet Technologies	171
A.1 IPv6	171
A.2 IPsec	172
A.3 S/WAN	172
B. Resources, Online and Otherwise	174
B.1 Software Updates	174
B.2 The IETF	174
B.3 CERT Advisories	174
B.4 The Trade Press	175
B.5 Networking and Intranet-Related Web Sites	175
B.6 Usenet Newsgroups	175
B.7 Mailing Lists	176
Colophon	177
