Our lives have been greatly blessed by all the wonderful people that have crossed our paths throughout these many years. We are thankful to all of our 'multiple personality' patients that reminded us, that inside each of us are many parts, yet we often forget that we are all parts of one body and must learn to work together.

We are very thankful to all of the wonderful metaphysical teachers that have written the many books that have greatly influenced our lives. Thank you all for having the courage to let your Light shine.

Oreon: I offer the deepest gratitude for all the many teachers who have danced this dance of life with me; Dr. Jerry Jampolsky and Dianne Cirrincione; Gail Straub and David Gershon; Dr. Jean Houston, Drs Tom and Caron Goode; Dr. Marjorie Barlow; Tobias and oh so many others.

To my parents Pat and Ollie for all your support and love in my adventures and misadventures of life thus far and to the memory of the best grandparents a Being could ever ask for Mama and Dandy, I love you always.

Thanks to my Beloved Twin Flame Arianni for it is through your compassion and patience that I grow and open my heart more each day.

Arianni: My special thanks and blessing to: Dr. Steven Vazquez; Annandi Ma and Deleepji; Rabbi Phillip & Karen Berg; Drs. Tom and Caron Goode; Geoff & Linda Hoppe; Dr. Paula Sunray; Mark Pantak and the multitude of other precious Beings that have reminded me of my True Divinity.

To my mother, Florence, thank you for always being my personal cheerleader. When I wasn't sure I could make it through, you encouraged me with your words, your love and your support. I am blessed to have been born to you. Thank you.

All my Love to Oreon. You are my True Love and continually remind me to live from my heart. Thank you my dear Twin Flame.
