Introduction	xxv

Part I

Overview of Enterprise 2.0

▼ 1 The Evolving Technology Environment	3
Web 1.0	4
Before Web 1.0	5
Web 2.0	6
Web 2.0 Technologies	8
Web 2.0 Warnings	10
Collaboration	11
It's All About the Content	12
Enterprise 2.0	13
Enterprise 2.0 as a Competitive Advantage	15
Making the Move to Enterprise 2.0	17
Summary	19

▼ 2	Enterprise 2.0 ROI	21
	The Need for Measuring Return on Investment (ROI)	22
	Measuring Enterprise ROI	22
	Measuring ROI in Web 1.0	23
	Measuring ROI for Small Projects	23
	Measuring ROI for Large Projects	23
	What Does ROI Measure?	24
	Return on Investment Analysis	24
	The Scenario	24
	Enterprise 2.0 Solutions	25
	Goals	25
	Costs	26
	Implementation	26
	Adoption Success	27
	Beginning the ROI Measurement Process	27
	Measuring Benefits to Jocation	33
	Measuring the Return on Investment	36
	Comparing Open Source Costs	37
	Open Source Software Costs	37
	Summary	38
▼ 3	Social Media and Networking	39
	Pre-Internet Networking	40
	The Internet Expands Communications	41
	The Need for Online Networking	41
	The First Online Social Networks	41
	Present Day: Facebook and MySpace	42
	Combining Business Networking and Social Networking	42
	Social Networking Theory	43
	Network Effects	43
	Social Networking in the Office	44
	Social Networking Outside the Office	44
	Barriers to Adoption	45
	Risks of Implementing and Using Social Networks	46
	Overview of Current Social Networking Platforms	47
	Facebook	47
	MySpace	48
	LinkedIn	48
	Ning	48
	Internal Social Networking	52
	Awareness	52
	IBM Lotus Connections	53

Clearspace X	53
HiveLive	53
Bringing Social Networking to the Enterprise	54
Summary	54
▼ 4 Software as a Service	55
Software as a Product	56
Economics of Software as a Product	57
Using Software as a Product	58
The New Model: Software as a Service	59
SaaS Challenges	60
Infrastructure as a Service	62
Virtualization	63
Virtual Appliances	64
SaaS Security	65
ASP Versus SaaS Model	66
Summary	68

Part II

Implementing Enterprise 2.0 Technologies

▼ 5 Architecting Enterprise 2.0	71
Why Enterprise 2.0?	72
A Quick and Dirty Enterprise 2.0 Case Study	72
Why Enterprise 2.0 Faces Greater Challenges than Web 2.0	74
The Internet vs. the Intranet	76
The Intranet	78
Leveraging Existing Information Assets	81
Master Data Management	82
Thinking in Terms of SOA	84
Service-oriented architecture: The Plumbing	86
Search, Search, Search	88
SOA and Democracy	90
Discovery	91
Crawling and Indexing	91
Searching	92
Motivation	97
Authorship	98
Capitalizing on Informal Networks	99
Signals	104
Rich Internet Applications	105
Summary	106

▼ 6	Enabling Discovery	109
	Why Companies Need Discovery	110
	The Enterprise 2.0 Discovery Vision	111
	Implementing Discovery in a Phased Approach	114
	Respecting Security	117
	Integrating Line-of-Business Applications	120
	Customizing the Search User Interface	123
	Leveraging Collective Intelligence: Social Bookmarking	124
	An Enterprise 2.0 Discovery Case Study	127
	Planting the Seed	130
	Enterprise Search Vendors	140
	Social Bookmarking Vendors	142
	Summary	143
▼ 7	Implementing Signals and Syndication	145
	What Is Web Syndication?	146
	Types of Feeds	149
	Advantages of Web Syndication	149
	Feed Readers	152
	XML	155
	XML Documents	156
	RSS	164
	RSS 0.91	165
	RSS 0.92	167
	RSS 1.0	169
	RSS 2.0	171
	Atom	171
	Atom 1.0 Format	171
	Parsing an Atom Feed	175
	Summary	177
▼ 8	Implementing Wikis	179
	What Is a Wiki?	180
	Evolution of Wikis	180
	Why Use a Wiki?	182
	Using a Wiki	183
	Editing Content in a Wiki	184
	Recent Changes	187
	Page Revisions	188
	Locking pages	189
	Linking and Searching in Wikis	190
	Wiki Roles	191
	CMS, ECM, and Wikis	192

Wiki Platforms	192
Installing a Wiki	195
Installing a Wiki on a Server	196
Installing a Wiki Virtual Machine	198
Adopting Wikis in a Corporation	199
A Journey, Not a Destination	201
▼ 9 Implementing Blogs	203
What Is a Blog?	204
The Blog as a Printing Press	204
Business Blogging	205
How to Blog	206
Characteristics of a Blog	215
Other Types of Blogs	217
Blog Search Engines	218
Mixing Work and Personal Life	222
Building a Community of Business Bloggers	223
Blogging on the Intranet	224
Other Blogging Platforms	230
Monitoring the Blogosphere	231
Summary	235
▼ 10 Building Mashup Capabilities	237
Mashups in the Real World	241
Mashup Makers	241
Service and Widget Makers on the Internet	243
Service and Widget Makers on the Intranet	248
Mashup Servers	252
Enterprise Mashup Makers: Spreadsheets for Enterprise Applications	254
Summary	261
▼ 11 Rich Internet Applications	263
What Is a Rich Internet Application?	264
The Web as a Platform	266
AJAX	266
XMLHttpRequest	268
JavaScript and the Document Object Model	269
Using the XMLHttpRequest Object	270
Google Widgets Toolkit	272
ASP.NET AJAX	274
Server-Centric Model	274
Client-Centric Model	276

The Future of RIAs	278
Adobe Flex	278
Example Flex Application	279
Microsoft Silverlight	281
Summary	282
▼ 12 Implementing Social Networking	283
Social Capital	285
Defining Informal Networks	289
Social Graphs	290
Social Graphs of the Corporate Intranet	299
Visible Path	299
Social Networking Software	301
SocialEngine	302
Summary	311
▼ 13 The Semantic Web	313
HTML Markup	314
The Semantic Web	317
Ontologies	317
Human Understanding	319
Layer Cake	320
Semantic Web Value Proposition	321
Approach	322
RDF	323
SPARQL	325
OWL	327
Microformats	330
Semantic Web Technologies and Enterprise 2.0	331
Summary	333

Part III

Managing Enterprise 2.0

▼ 14 Governance, Risk Management, and Compliance	337
Whole Foods Market Inc.	338
A New Era of Governance	341
Risk Management	342
Best Practices	342
Culture	343
Mitigating Risk	343
Regulations and Liability	344
Resource Abuse	346

Managing Best Practices	347
Standards	348
Structure	348
Discoverability	349
Cultural Governance	350
Transparency, Flatness, and Informal Networks	350
Compliance	351
Securities Exchange Act of 1933: The Quiet Period	351
E-Discovery	352
Business Record Retention	352
Summary	353
▼ 15 Security	355
Security = Risk Management	356
Managed Risk	357
What Is “Good” Security?	358
Getting Hacked	359
Think Like a Hacker	360
Internal Threats	361
Security Policies and Procedures	361
Sensitive Information	361
Security Technologies	362
HTTPS	362
Securing Web Services	363
Auditing Enterprise 2.0 Applications	364
Gathering an Inventory	365
Auditing Content	366
Reviewing Authorization	369
Security Vulnerabilities	369
Third-Party Software	370
Google Hacking on the Intranet	371
Securing Mashups	372
Denial of Service Attacks	372
SQL Injection	373
Cross-Site Scripting	375
Sample Vulnerabilities	377
Security Vulnerabilities in RIA	378
Summary	379
▼ Glossary	381
▼ Index	391
