<b>Welcome</b> .....	7
<b>Chapter 1</b>	
<b>Installing and Starting ABBYY FineReader</b> .....	9
Software and hardware requirements.....	10
Installing ABBYY FineReader .....	10
Network server/workstation installation .....	11
Starting ABBYY FineReader .....	12
About ABBYY FineReader activation .....	12
<b>Chapter 2</b>	
<b>Quick Start</b> .....	15
How to input a document in less than a minute.....	16
The ABBYY FineReader main window.....	16
ABBYY FineReader toolbars.....	18
<b>Chapter 3</b>	
<b>General Features of ABBYY FineReader</b> .....	23
What is an OCR system? .....	24
New features of ABBYY FineReader 7.0.....	25
Supported document saving formats .....	27
Supported image formats .....	28
<b>Chapter 4</b>	
<b>Acquiring the Image</b> .....	29
Scanning.....	30
Setting scanning parameters.....	31
Tips on brightness tuning .....	32
Scanning multi-page documents .....	33
Opening images .....	35
Acquiring images from the Hot Folder.....	36
Scanning dual pages.....	36
Adding business cards images to a batch.....	37
Page numbering .....	37
Working with an image.....	38
Batch image options .....	40

**Chapter 5**

<b>Page Layout Analysis</b> .....	41
General information on page layout analysis .....	42
Block types .....	42
Automatic page layout analysis options .....	43
Drawing and editing blocks manually .....	45
Manual table layout analysis .....	48
Using block templates .....	49

**Chapter 6**

<b>Recognition</b> .....	51
General information on recognition .....	52
Recognition languages .....	53
Source text print type .....	54
Other recognition options .....	55
Background recognition .....	55
Recognition with training .....	56
How to train a user pattern .....	58
How to edit a user pattern .....	59
User languages and language groups .....	60
How to create a new language .....	61
How to create a new language group .....	62

**Chapter 7**

<b>Checking and Editing Text</b> .....	65
Checking text in ABBYY FineReader .....	66
Check and edit text options .....	68
Adding and deleting words to/from the user dictionary .....	69
Editing text in ABBYY FineReader .....	70
Editing tables .....	74

**Chapter 8**

<b>Saving into External Applications and Formats</b> .....	75
General information on saving recognized text .....	76
Text saving options .....	76
Saving the recognized text in RTF, DOC and Word XML formats .....	79
Saving the recognized text in PDF format .....	79
Saving the recognized text in HTML format .....	80
Saving the recognized text in PPT format .....	82
Saving the page image .....	82

**Chapter 9**

<b>Working with Batches</b> .....	83
General information on working with batches .....	84
Creating a new batch .....	85
Opening a batch .....	85
Adding images to a batch .....	86
Batch page number .....	86
Saving a batch .....	87
Closing a batch page or the whole batch .....	87
Deleting a batch .....	88
Batch settings .....	88
Full-text search in recognized batch pages .....	89

**Chapter 10**

<b>Network Document Processing</b> .....	91
Working with the same batch over a network .....	93
Group work with the same user languages and dictionaries.....	94
Group work with customized dictionaries (languages with dictionary support only) .....	95

**Appendix**

<b>Hot Keys and Glossary</b> .....	97
Hot Keys .....	98
Glossary .....	100
