

Table of Contents

Preface.....	ii
Acknowledgements.....	iii
Chapter 1: Introduction	1
1.1 Purpose of this Volume	1
1.2 Where we fit in the Computing Curriculum picture	1
1.3 Development Process of the SE2004 Volume	2
1.3.1 Education Knowledge Area Group	2
1.3.2 Pedagogy Focus Area Group.....	3
1.3.3 Full Volume Development	3
1.4 Structure of the Volume	4
Chapter 2: The Software Engineering Discipline	5
2.1 The Discipline of Software Engineering.....	5
2.2 Software Engineering as a Computing Discipline	6
2.3 Software Engineering as an Engineering Discipline.....	7
2.3.1 Characteristics of Engineering	7
2.3.2 Engineering design	8
2.3.3 Domain-specific software engineering.....	8
2.4 Professional Practice	9
2.4.1 Rationale.....	9
2.4.2 Software Engineering Code of Ethics and Professional Practices	10
2.4.3 Curriculum Support for Professional Practice.....	10
2.5 Prior Software Engineering Education and Computing Curriculum Efforts	10
2.6 SWEBOK and other BOK Efforts	11
Chapter 3: Guiding Principles	13
3.1 SE2004 Principles	13
3.2 Student Outcomes	14
Chapter 4: Overview of Software Engineering Education Knowledge	17
4.1 Process of Determining the SEEK	17
4.2 Knowledge Areas, Units, and Topics.....	17
4.3 Core Material	18
4.4 Unit of Time	18
4.5 Relationship of the SEEK to the Curriculum	19
4.6 Selection of Knowledge Areas.....	19
4.7 SE Education Knowledge Areas	20
4.8 Computing Essentials.....	21
4.9 Mathematical and Engineering Fundamentals	23
4.10 Professional Practice.....	24
4.11 Software Modeling and Analysis.....	25
4.12 Software Design.....	27
4.13 Software Verification and Validation	28

4.14	Software Evolution	29
4.15	Software Process	30
4.16	Software Quality	31
4.17	Software Management	32
4.18	Systems and Application Specialties	33
Chapter 5:	Guidelines for SE Curriculum Design and Delivery	36
5.1	Guideline Regarding those Developing and Teaching the Curriculum	36
5.2	Guidelines for Constructing the Curriculum.....	37
5.3	Attributes and Attitudes that should Pervade the Curriculum and its Delivery	39
5.4	General Strategies for Software Engineering Pedagogy	44
5.5	Concluding Comment	46
Chapter 6:	Courses and Course Sequences	47
6.1	Course Coding Scheme	48
6.2	Introductory Sequences Covering Software Engineering, Computer Science and Mathematics Material	49
6.2.1	Introductory Computing Sequence A: Start software engineering in first year. ..	51
6.2.2	Introductory Computing Sequence B: Introduction to software engineering in second year.....	52
6.2.3	Introductory Mathematics Sequences.....	53
6.3	Core Software Engineering Sequences	54
6.3.1	Core Software Engineering Package I.....	55
6.3.2	Core Software Engineering Package II	56
6.3.3	Software Engineering Capstone Project.....	57
6.4	Completing the Curriculum: Additional Courses	57
6.4.1	Courses covering the remaining compulsory material	57
6.4.2	Non-SEEK courses	58
6.5	Curriculum Patterns	59
Chapter 7:	Adaptation to Alternative Environments.....	65
7.1	Alternative Teaching Environments	65
7.1.1	Students at different physical locations.....	66
7.1.2	Students in class at different times	66
7.2	Curricula for Alternative Institutional Environments	67
7.2.1	Articulation problems.....	67
7.2.2	Coordination with other university curricula	67
7.2.3	Cooperation with other institutions	68
7.3	Programs for Associate-Degree Granting Institutions in the United States and Community Colleges in Canada	69
7.3.1	Special programs	70
Chapter 8:	Program Implementation and Assessment	71
8.1	Curriculum Resources and Infrastructure	71
8.1.1	Faculty	71
8.1.2	Students	71
8.1.3	Infrastructure	71
8.1.4	Industry Participation	72

8.2	Assessment and Accreditation Issues.....	72
8.3	SE in Other Computing-Related Disciplines	73
	Bibliography for Software Engineering Education	75
	Appendix A: Detailed Descriptions of Proposed Courses.....	83
	Appendix B: Contributors and Reviewers	118
	Index	127
