

Table of Contents

Glossary	V
1 A random world.....	1
The real world - a surprising place.....	1
Randomness and perception	3
The Gamblers Fallacy	3
Doubles in dice.....	4
Simulating the uncalculable	5
2 Exploring Risk with the Marble Game	7
How much risk for the marble game	7
A Riskless Game.....	8
Risk Strategies for the Marble Game	8
Simulating the marble game.....	9
The problem of comparing to the riskless game.....	10
Increasing the Win/Loss ratio.....	11
Looking for acceptable drawdown.....	12
High probability for more profit and lower drawdown	14
Pushing profitability	15
Lessons of the marble game.....	16
3 Monte Carlo Simulation Concepts.....	17
About Monte Carlo Simulation	17
The power of simulation.....	18
Risk strategies	18
Boundary conditions.....	19
Uses of simulation	19
Drawdown defined.....	19
Understanding percentile	20
A shorthand notation	20
The returns list.....	21
Risk strategies	22
Sample risk curves	22
Why Use Constant risk?.....	25

Starting and Minimum Equity.	25
4 Using TradeSim	27
Program Windows	27
The Menu line.....	28
Treating negative ending equity	30
Matching output types to risk strategies.	30
Drawdown Group.....	31
Risk strategies	31
Normalize.....	31
Run setup.....	32
Start, Stop and Step	33
Files group	33
Copy and Show	33
Charts and Tables	34
Setting column headings.....	35
The relation between Equity Accumulation and equity charts.....	41
The returns file.....	42
Returns file errors	44
Entering risk curve data	44
Creating Risk Files.....	45
Inside a TradeSim simulation.....	46
Overflow	47
5 Expectancy, Frequency and Uncertainty.....	48
What we can expect from expectancy	48
Arithmetic expectancy	48
Geometric expectancy.....	48
The Law of large numbers	50
Trade frequency.....	52
Risk and Uncertainty	53
Risk and uncertainty in real trading.....	55
6 Educational games with TradeSim	57
The three marble game	57

Equivalent expectancy?.....	58
Break even trades.....	59
7 Exploring Real Returns Data	61
Sources of historic returns data.....	61
Real world examples.....	61
Piranha S&P Trading System	62
Prudent S&P Trading System	62
Remarkable S&P Trading System.....	62
Tactical trading	68
Recent results	70
Comparing trading results.....	71
Falling off the Optimal- f precipice.....	72
Applying risk in practice	73
8 Accelerating profit by risking profit.....	75
Risking Profit with the Tactical Trading example.....	77
Applying User Risk Curves.....	79
Limits to Size.....	82
9 Conclusion	84
