

# BASIC CRIMINAL LAW

The U.S. Constitution, Procedure, and Crimes

Anniken U. Davenport

About *Basic Criminal Law* from our readers:

“While many Criminal Law texts only sparingly cover the roots of our justice system, the author outdoes herself with a commanding knowledge that outshines the rest and answers the question of how and why we have the justice system we have. An additional strength is the breadth of discussion on the issue of the death penalty, and other issues such as terrorism, that are extremely timely in the present day.”

Cheryl K. Bullard, Auburn University

“Overall, I think *Basic Criminal Law* is an enjoyable and informative alternative in a crowded field of criminal law texts. Congratulations to Ms. Davenport.”

Kent D. Kauffman, Ivy Tech State College

“[This book’s] material is logically presented and reads quite well. I would not change much in this regard. Again, I have found that it is quite up to date and in line with current trends in the field.”

Robert N. Diotalevi, Florida Gulf Coast University

“A central and unique strength of the manuscript is its ability to effectively interweave appropriate cases throughout accompanied by chapter commentary, which is generally conversational in tone and presentation. This allows for greater student learning and understanding.”

Taylor L. Morton
