Foreword	XI
Preface	XIII
1 Introduction	1
1.1 Reverse Engineering	1
1.2 The <i>eLib</i> Program	3
1.3 Class Diagram	5
1.4 Object Diagram	8
1.5 Interaction Diagrams	10
1.6 State Diagrams	14
1.7 Organization of the Book	18
2 The Object Flow Graph	21
2.1 Abstract Language	21
2.1.1 Declarations	22
2.1.2 Statements	24
2.2 Object Flow Graph	25
2.3 Containers	27
2.4 Flow Propagation Algorithm	30
2.5 Object sensitivity	32
2.6 The <i>eLib</i> Program	36
2.7 Related Work	40
3 Class Diagram	43
3.1 Class Diagram Recovery	44
3.1.1 Recovery of the inter-class relationships	46
3.2 Declared vs. actual types	47
3.2.1 Flow propagation	48
3.2.2 Visualization	49

3.3	Containers	51
3.3.1	Flow propagation	52
3.4	The <i>eLib</i> Program	56
3.5	Related Work	59
3.5.1	Object identification in procedural code	60
4	Object Diagram	63
4.1	The Object Diagram	64
4.2	Object Diagram Recovery	65
4.3	Object Sensitivity	68
4.4	Dynamic Analysis	74
4.4.1	Discussion	76
4.5	The <i>eLib</i> Program	78
4.5.1	OFG Construction	79
4.5.2	Object Diagram Recovery	82
4.5.3	Discussion	83
4.5.4	Dynamic analysis	84
4.6	Related Work	87
5	Interaction Diagrams	89
5.1	Interaction Diagrams	90
5.2	Interaction Diagram Recovery	91
5.2.1	Incomplete Systems	95
5.2.2	Focusing	98
5.3	Dynamic Analysis	102
5.3.1	Discussion	105
5.4	The <i>eLib</i> Program	106
5.5	Related Work	112
6	State Diagrams	115
6.1	State Diagrams	116
6.2	Abstract Interpretation	118
6.3	State Diagram Recovery	122
6.4	The <i>eLib</i> Program	125
6.5	Related Work	131
7	Package Diagram	133
7.1	Package Diagram Recovery	134
7.2	Clustering	136
7.2.1	Feature Vectors	136
7.2.2	Modularity Optimization	140
7.3	Concept Analysis	143
7.4	The <i>eLib</i> Program	148
7.5	Related Work	152

8	Conclusions	155
8.1	Tool Architecture	156
8.1.1	Language Model	157
8.2	The <i>eLib</i> Program	159
8.2.1	Change Location	160
8.2.2	Impact of the Change	162
8.3	Perspectives	170
8.4	Related Work	172
8.4.1	Code Analysis at CERN	172
A	Source Code of the <i>eLib</i> program	175
B	Driver class for the <i>eLib</i> program	185
	References	191
	Index	199
